➔ SPIRA-HBAH

## Product Description

This task chair has the performance credentials of a specialist chair, yet still has an aesthetic appeal that makes it suitable for large-scale preventative use.

Highly adjustable arms, headrest and back support, including integrated air cells in the lumbar and pelvic area, guarantees a better fit for users. With a contoured back shape offering snuggler support, and a smaller seat option for shorter users, the Spira plus provides ergonomic support for all.

With two back sizes and two seat sizes, the range enables accurate set-up and fit-for-purpose seating solutions for all shapes and sizes of user.

The chair also features a retro-fittable headrest and 4D arms, making it suitable for a variety of tasks and applications.

## Product Specification
