

Penclic Mouse

Accurate and easy to use.

 BAKKER ELKHUIZEN

Work Smart - Feel Good

The mouse that writes like a pen!

The Penclic Mouse is a wireless pen-grip mouse with a laser sensor. This neutral grip lowers muscle tension in the forearm and wrist.

The Penclic is a precision mouse. You hold these mice in a sort of pen grip. It is a posture that we learn at a young age, so it is easy to get used to.

The use of a precision mouse can also result in less muscle strain in the forearms because this involves less wrist extension (Kotani & Horii, 2003; Ulmann, et al., 2003).

Ergonomic: pengrip enables an relaxed and natural working position.

Precise: just as precise as with a pen.

Handy: 5 buttons and scroll wheel.

Adjustable cursor speed: 800 - 1200 - 2400 dpi.

Wireless version: BNEPCW

Width	60 mm
Height	140 mm
Depth	45 mm
Weight	32 gr
Product code	BNEPCC
