<b>Shade Finish</b>	spun solid brass (CM-091)	R
<b>Suspension</b>	corded (CM-090)	C

Includes: brushed brass (CM-008).

After working with drum cymbals on a few custom projects, we grew to appreciate the design and engineering that goes into these beautiful objects. Cymbals have a simple form, rich texture, and a beautiful brass finish. Modernism is often about utilizing what already exists and repurposing things, which is what we did with this fixture. The Ico looks excellent when paired with a simple light bulb.

Nick Sheridan,
