

General Product information

This product is suitable for indoor dry locations only.

IMPORTANT SAFETY INSTRUCTIONS

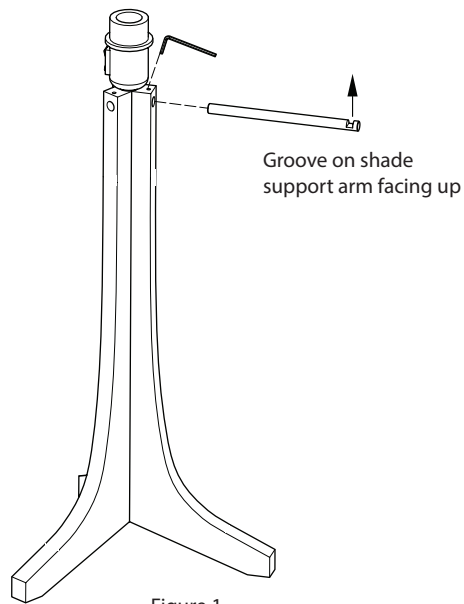

This portable luminaire has a polarized plug (one blade is wider than the other) as a feature to reduce the risk of electric shock. This plug will fit in a polarized outlet only one way.

If the plug does not fit fully in the outlet, reverse the plug. If it still does not fit, contact a qualified electrician. Never use with an extension cord unless plug can be fully inserted. Do not alter the plug.

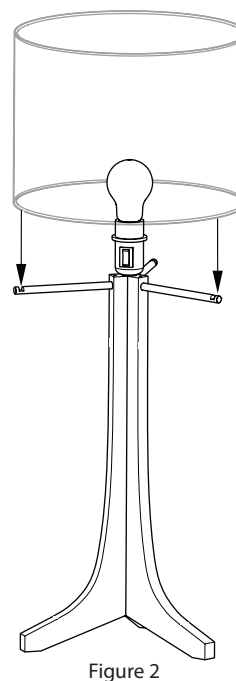

INSTALLING THE SHADE SUPPORT ARMS

- 1 Insert the shade arms into the holes around the socket. The groove in the arm should be facing up and outwards from the socket.
- 2 There are three set screws located at the top of the legs. Tighten these set screws using the provided hex key to hold the shade support arms in place.

ATTACHING LIGHTBULB AND SHADE

- 3 Screw the light bulb into the socket.
- 4 Press the shade into the three grooves of the shade support arms.

TURNING FIXTURE ON/OFF

- 5 Insert the plug into an outlet. Flip the switch on the socket to turn your light ON and OFF.
