Our Promise to You

We pride ourselves on our ability to manufacture custom products to meet your needs. Using only the highest quality materials and complying with all regulatory requirements, we stand by the functionality and durability of everything we do.

Made in Canada. 
Trusted by Canadians.

ABOUT US

Since 1988, F.A.S.T. First Aid & Survival Technologies Limited has grown to be the largest custom emergency management and safety solution manufacturer in Canada. We provide high quality products direct to the end user.

Our products are proudly made in Delta, British Columbia. Obtaining raw materials from North American sources is a priority. We are the only Canadian company to manufacture emergency food and water rations to Transport Canada certification standards. F.A.S.T. maintains a Medical Device Establishment License (MDEL) from Health Canada which is legally required to manufacture and sell first aid kits in Canada.

The products featured in this catalogue are just a snapshot of our capabilities. Our products are not commodities but are designed and developed to meet the unique, complex and specific needs of our customers. F.A.S.T. products never “go out of style” or become discontinued. Customers are always able to re-order exactly what was previously purchased. In addition, our in-house design team allows us to continually create innovative new products in collaboration with our customers.

ICS/EOC IDENTIFICATION VESTS

F.A.S.T. vests are used to identify the roles within the Incident Command/ Incident Management structure, either in an Emergency Operations Centre or Site Command. Because our vests are designed and manufactured in Delta, BC, we are able to customize the style to include positions such as floor wardens, security officers and joint committee members; Search and Rescue (SAR) and various volunteer positions, colour combinations and quantities required, including your organization's logo.
