Clicky Hip Support Group C/- Heather Chin 5A Kapil Grove Khandallah Wellington

Miriam Rutherford Safe T Sleep C/- Counter #52 NZPO Takanini Auckland

Dear Miriam

I am the group co-ordinator for the Wellington region Clicky Hip Support Group. This voluntary and non-profit group was started in 1995 to provide support and special equipment for families with a child who is undergoing hip treatment. Whilst undergoing treatment, the child is in traction in hospital for up to one month. During this time, the child must remain immobilised flat on his back. We have found that the only safe and effective method of keeping a once active child in this position is to use a Safe T Sleep Sleepwrap.

As the Support group is a voluntarily run community group, we are seeking your generosity in donating two Safe T Sleeps to the group or selling them to us at the lowest possible price.

I can be contacted at the above address or telephone 04 479 3388. I look forward to hearing from you.

Yours sincerely

Heather Chin Group Co-ordinator 7 March 2001

Miriam Rutherford Safe T Sleep (N.Z.) Ltd PO Box 135 Takanini AUCKLAND

Dear Miriam

I refer to my letter dated 1 March and your prompt reply.

We have received the two Safe T Sleeps you have so generously donated to our support group. We really appreciate your generosity and can assure you that the items will be a great assistance to any parents who have to immobilise a child flat on his back for traction.

I can still remember using the Safe T Sleeps when our daughter Kathryn was in traction for a month in May 1995. Without this fabulous invention, we would never have lasted the distance!! Imagine keeping a once active (from 6 months old) child immobilised at 16 months of age.

Once again, many thanks. We have recommended your products to all our friends. In fact, we used the Safe T Sleep more than our portacot in our travels. So portable and took so little packing room. We wish your company all the best.

Yours sincerely

Heather Chin Group Co-ordinator
