Just wanted to say that this is the most brilliant product. My husband decided that we needed one when our baby moved from her bassinet to her cot, and I thank him for buying it every day! Imogen is so comfortable in it and I get a great nights sleep each night because I know that she is safe and secure in her Safe T Sleep. We have taken it on holidays with us and used it successfully in her portacot and in a single bed. A great invention, and one that I tell all my friends about. Congratulations on a well thought out and safe product. It is worth every penny!
