## Ring Sizing Guide

Scale this PDF to 100% and print on US letter size paper (8.5" x 11"). Can you fit a credit card in the space below? Then you've successfully printed this sizing guide to scale. Huzzah!

Option 1: Measure by matching a current ring you wear. Use this guide and line up to the circle that best matches your ring in size. If your ring falls between two sizes, we recommend selecting the larger size.

Option 2: Measure your finger with a paper sizing strip. Cut out the paper sizing strip and wrap it around your finger. Fit snugly to be accurate, and select the number that lines up the slit in the paper. That's your size!
