# MEET ALISON

**Alison Van Wyck is the medicine woman and founder of Wisdom Nectar.**

Her practice of blending herbal teas, tisanes & tinctures started over 15 years ago when she was trying to get pregnant.

To purify her body & get it ready for growing a baby, she felt she needed extraordinary means to receive the minerals & vitamins — and tea was how she did that.

Over the years, her blends have been formulated based on a need from her community ~ from a request for something to drink to support restful sleep, to a nourishing tea that boosts the immune system!

Lastly, making tea isn't her main gig.

**The truth is:** She's a painter, and does tea on the side!

The art you see featured on the bags of tea are Alison's original paintings!

The tea, the art, the surprises you find along the way ~ is an offering from her heart to you.
