

# INSTRUCTION MANUAL

## BATTERY MINI AIR COMPRESSOR HS08 SERIES

Thanks for purchasing our HS08 series battery mini air compressor, please read this Instruction Manual carefully and thoroughly before operating the air compressor to receive optimum results.

CE ROHS

## HS08 Series Battery Mini Air Compressor

- Features:**
1. Suitable for airbrush dia 0.2~0.5mm, ideal for make up, cosmetic and so on;
  2. AC、DC two power for choice;
  3. Auto stop function;
  4. It can start with pressure, and continuous work;
  5. Working pressure adjustable;
  6. Derma cowskin bag、waistband and elastic strap, suitable for mobile working;
  7. 360 degree circumvolve airbrush holder, for your convenient work.
  8. After the battery fully charged, the charger light will turn red to green.

### Specification:

MOTOR: DC 12V	AC transformer
AMP: 1.6A	Input AC100~240V 50/60HZ 0.6A
Air flow: 10.5L/min	Output DC 12V 1.6A
Auto stop: 21psi	Battery/charger
Auto start: 15psi	Input AC 100~240V 50/60HZ 350MA
Working pressure: 2~15psi	Output DC 12V 500MA
	Nominal voltage: 12V×10cell 2000man
	Fully charge time: Around 4hours
	(Power auto cut off when fully charge)
	Working time after fully charge: 90min

16. If any accessory is damaged, please take it to wholesaler or professional repair shop, do not try to repair by oneself.
17. Please keep the airbrush compressor and battery in clean, dry and do not expose the product or its accessories in the sun or to the temperatures high than 35 °C.
18. The product is not a toy and must be kept out of the reach of children. There is an electric shock hazard if connect the power plug in a wrong way.

## Setup Direction:

AC Setup:	DC Setup:	Battery Charge Setup:	Spare Part List:				
			1.AC Transformer 	2.AC Back cover 	3. Compressor 	4. Holder 	5. Air hose 
			6.Filter 	7.Battery Charger 	8. Battery 	9.DC Back Cover 	10. Bag

## **SAFETY REQUIREMENT FOR USER**

1. When use a new battery for the first time or after long term storage, please fully charge the battery before use.
2. Use the correct charger for Ni-MH battery.
3. Don't reverse charge battery.
4. Don't short-circuit battery, permanent damage to battery may result.
5. Don't incinerate or mutilate battery, may burst or release toxic material.
6. Don't solder directly to cells or battery, please store battery in a cool dry place.
7. Don't mix battery with other battery type, or battery of a different chemistry, such as alkaline and zinc carbon.
8. When not using a battery, disconnect it from the device.
9. When find battery power down during use, please switch off the device to avoid over-discharge.
10. In order to extend the battery life, please to charge before keeping. Advice to discharge at least one time every three months prevent automatic discharge.
11. This airbrush compressor suitable for indoor use only, to prevent health damage, never use at high temperature, wet location!
12. The product must used in dry, indoor locations. Do not spray noxious, flammable, explosive material.
13. Unplug a battery by holding the connector it from the device.
14. If don't use this product in right way, it will damage the airbrush compressor, battery, or hurt user.
15. If there is something unusual happens, please disconnect the device and power supply immediately.

## **Operation Direction:**

1. When in AC air compressor working situation, please put AC transformer plug into compressor power jack, and connect with AC power at the same time, and use AC back cover.
2. When in DC air compressor working situation, please charge the battery before use, then put the battery into battery box (DC back cover) and connect with air compressor; put battery plug into compressor power jack.
3. Connect the air compressor outlet with air hose; connect air hose with HS-F4 mini filter (if there is one), and the mini filter HS-F4 connect with airbrush.
4. The mini filter HS-F4 have very good effect of filter moisture, and the water can be released from mini filter by pressing the needle of the filter.
5. Press the red power on/off switch, the compressor start working and the red turn to green. It has auto stop function, the compressor will auto stop when stop use airbrush, and the compressor will restart working when start use airbrush. And please turn off the compressor when stop use.
6. The compressor can adjust the pressure, please turn clock wise or anticlock wise to set the pressure.
7. The compressor can work under pressure, and continuous working.
8. The compressor has internal hot protection device, the compressor will auto cut off the power when over heat, and reset after the motor cool down.
9. The airbrush holder can circumscribe in 360 degree, for customers convenient use.
10. The cowskin bag can be used as backpack or waist pack.
