FEAPZ1: Fuego Pizza Stone Kit

For use with all Fuego models.

FEAPZ1 includes the following components:

- 1 - 16" Pizza Stone
- 1 - Foldable Pizza Peel
- 1 - Pizza Cutter

Directions For Use:

1. With the grill off and cool, remove the diffuser panel below the grate and re-install the grate.
2. Place the pizza stone on top of the grate centered over the burner(s).
3. Preheat the grill with pizza stone on high for 15-20 mins.
4. Remove / Open the lid and quickly place pizza on stone with the pizza peel. As a tip to prevent sticking, make sure the dough has sufficient flour or corn meal on the bottom side of the dough.
5. Replace / Close lid and cook pizza for approximately 5 mins deepening on crust thickness.
6. Remove pizza from stone using the pizza peel and transfer to a plate or cutting board.
7. Let rest for approximately 2 minutes then slice with the pizza cutter and enjoy.
8. Place your next pizza on the stone. We recommend allowing the pizza stone to heat back up on high with the lid closed for 5 mins between each pizza for optimal results.

If you have any questions or comments about use, please contact our customer support team via email at support@fuegoliving.com or phone at 888.883.8346.
