

High Speed Label & Logo Press

Built solid as a rock to endure 24 hour work cycles, seven days a week!

Insta Design Advantages

Central Pressure Source The pressure source is strategically placed over the center of the upper platen and uses struts to drive that pressure out to all corners. The result is an even and heavy duty distribution of pressure that is unmatched by other heat presses in the market today.

Cast-In Heating Element The tubular heating element is cast into the aluminum upper platen, heating the metal from within. The element is coiled throughout the upper platen to provide reliable and even circulation of heat out to all corners.

Integrated Digital Controller Controls for time, temperature (Fahrenheit or Centigrade) & auto-off.

Solid as a Rock Construction

High Quality/High Value Machines made from cast metal are considered to be the highest quality and are strong enough to withstand heavy use without warping or bending.

Return on Investment

The Insta 909 is extremely durable and, if cared for properly, can last for many years to come. Step up to an Insta - you'll be glad you did!

Working Space Dimensions

- Depth: 22" (55.88 cm)
- Width: 32.75" (83.18 cm)
- Height: 19" (48.26 cm)
- Power: 120 volt - 1000 Watts, 8.3 Amps
230 volt - 920 Watts, 4.0 Amps
- Shipping Weight: 88 lbs (39.9 kilos)

REVI0192016

Product Features:

- Consistent results for high speed applications
- Single-station automatic machine
- 6" x 6" platen with small accessory 2.5" x 2.5" platen option
- Integrated digital control for time, temperature and cycle counter
- Hands-free foot pedal operation accessory option

Operator Benefits

Hands Free Operation The foot pedal attachment is an optional accessory that allows you operate the Insta 909 completely hands-free.

Enhanced Productivity The Insta 909 produces consistent results and reduces costly errors. Operators experience less stress, reduced fatigue and enhanced productivity.
