2. UNINET IColor Software Validation

· Enter your provided serial number

· Enter your System ID

· Then select Get Validation Code

Validation portal for Dongleless versions of UNINET® ProRIP Essentials RIP, Absolute White RIP, and SmartCUT Software

Please read before validating:

• You only need to validate your computer to run the RIP ONCE. Uninstalling the software does NOT remove the validation from your system. You can re-install or upgrade the software as many times as necessary without losing validation as long as it's on the same computer.

• Each serial number provides 3 validations (not 3 licenses). Each serial number is a license to run the RIP on one computer only. The extra validations are issued to provide redundancy in case of accidental loss of validation due to hardware failure (hard-disk crashes, etc.) or other unforeseen events.

Product Code (Serial Number)
U198663XXXXXXXXX
