Founder: "Bare roots evolved when I reached a point in my Dermal career where my beliefs around skincare had changed. By taking a more holistic, natural and supportive approach to our largest organ, I was driven to create a nurturing line of advanced Australian Certified Organic products that ticked all my boxes (and what I felt many clients boxes) when it came to finding the perfect skincare fit. By respecting our integumentary system for what it is and what it does, I believe we can achieve a more harmonious balance"
