FNGS DX is ideal for those suffering the effects of exposure to mold or fungus. This all-natural formula contains a unique blend of herbs, homeopathics, and minerals designed to support the body's defenses and reduce the allergic response to fungal species.

Fungi are widespread in the environment, and their spores and mycelium fragments are a potent [source of allergens](#). Common indoor molds favor environments with high humidity, low light and poor ventilation.

Mold allergies are highly common, and [have been implicated in numerous diseases](#). Patients who are allergic to certain fungal species may suffer allergic reactions after inhaling these fungal spores. Symptoms generally affect the respiratory tract, causing rhinitis, conjunctivitis and/or asthma.

Yeasts are also typical causes of opportunistic fungal infections, particularly Candida yeasts. These biofilms are often resistant both to conventional antimicrobial agents and to our own immune cells.

FNGS DX contains a range of nutrients shown to fight fungal species and support the body in overcoming infection.

Berberine is a potent antifungal alkaloid that harbors [broad antibacterial and antifungal activity against](#) a wide range of fungal pathogens, including fluconazole-resistant Candida, Cryptococcus, and also the biofilm form of Candida spp.

Echinacea is a powerful immunostimulant commonly used to [prevent and treat the symptoms](#) of upper respiratory illnesses and reduce their duration. Echinacea can also fight infections caused by candidiasis, bacteria, viruses, and helps to relieve inflammation. Echinacea has been shown to [disrupt the cell wall](#) of serious fungal and bacterial pathogens, which can significantly aid in treating infections.

Hydrastis (Goldenseal) is known for its [anticatarrhal, anti-inflammatory, and antiseptic benefits](#). It is particularly beneficial for the mucous membranes of the upper respiratory tract and the gastrointestinal tract, which can aid in treating allergic reactions to mold spores.

FNGS DX also contains a range of homeopathic remedies revered for immune health. Lycopodium is used in the [treatment of fevers](#), and chronic lung and bronchial disorders. Pulsatilla also helps with asthma and other respiratory conditions, while Thymus supports immune function.

Selenium and zinc are also crucial to immune system function. Selenium is required for [proper functioning of immune cells](#), while [zinc supports immune responses and reduces the incidence](#) of infections.

Benefits

This unique blend of antifungal nutrients and homeopathics encourages immune function by supporting the respiratory pathways and immune cell proliferation.

- Stimulates a healthy immune system response
- Improves natural defences against fungal pathogens
- Helps destroy yeast and fungal biofilms
- Provides antimicrobial activity against bacteria
- Provides antifungal activity against viruses, protozoa, and yeasts
- Promotes detoxification from mold and fungal exposure
- Helps relieve inflammation of the respiratory tract
- Support lung health
- Helps maintain overall immune health

Active Ingredients

- Berberis
- Cochlearis armor
- Echinacea
- Hydrastis
- Lapacho
- Lomatium
- Myrrh
- Propolis (3X)
- Ferrum
- Iridium
- Lycopodium
- Phosphoricum acidum
- Pulsatilla
- Selenium
- Zinc (12X)
- Thymus (6X)

Dosage

Administer 1-5 sprays into the mouth 1-3 times daily, or as directed by a healthcare professional.

Safety and side effects

FNGS DX has no reported interactions or adverse reactions. Do not take if you are allergic to any of the ingredients in FNGS DX. Do not exceed the recommended dose. Pregnant or nursing mothers, children under the age of 18, or those with a known medical condition should consult with their physician before taking ALRGY PRO.
