

H951x™ is an Advanced Concentrate Blend of Soy and NanoX nutrients designed support immune response. This complex compound and micro nutrients and metabolites have been shown to have different biological properties, such as anti-viral, anti-bacterial, anti-inflammatory, anti-mutagenic and anti-carcinogenic activities. Also may support hormone modulation.*

Advanced Nutrition to Feel Alive

H951x

ADVANCED CONCENTRATE

PROFESSIONAL STRENGTH

100 Capsules

DIETARY SUPPLEMENT

Suggested Use: 2 capsules daily or as directed by a healthcare professional.

SUPPLEMENT FACTS

Serving Size: 2 Capsules
Servings Per Container: 50

	Amount Per Serving	%DV
Proprietary Blend of Herbal & Botanical	1900 mg	*
Nutrient Extracts in NanoX Suspension		
Fermented Hydrolyzed Soy Isoflavone Concentrate, Oregano, Cinnamon, Mint & Neem		

* DAILY VALUE (DV) NOT ESTABLISHED

Other Ingredients: Glycerin, Vegetable Cellulose Capsule

Manufactured exclusively for: Alive Innovations LLC.
7901 4TH ST N, STE 300 ST. PETERSBURG, FL 33702

H951x is an Advanced Concentrate Blend of Fermented SSoy and NanoX nutrients designed to support immune response. This complex compound of micronutrients and metabolites shown to have different biological properties, such as anti-viral, anti-bacterial, anti-inflammatory, anti-mutagenic, and anti-carcinogenic activities.

The top component bringing these actions are the fermented hydrolyzed soy isoflavones. These isoflavones show in study after study to help the immune system be more effective, without overworking. But one of the most fascinating things about soy isoflavones is the controversy. In some studies, they increased the risk of breast cancer and in others, they reduced it.

What makes the difference?

Turns out it is the fermentation process. That is what makes H951x so special among supplements – it's one of the few on the market that contains fermented soy isoflavones. This fermentation process takes H951x to a whole new level by deactivating the goitrogenic compounds, releasing the genistein, the most abundant and active isoflavone in fermented soy, and has a multitude of effects on cancer cells, including inhibition of NF-κB activation and DNA methylation. Genistein helps reduce obesity, inflammation, cardiovascular disease and improves immune response.

The fermented hydrolyzed soy isoflavones combine with the nanoparticle technology that mixes oregano, cinnamon, mint, and neem that each work with the immune system in their own unique way to enhance the responsiveness to bacterial and viral invaders. Their individual immunomodulating properties keep the immune system from attacking healthy flesh.

Oregano and neem are two of the most popular components of natural immunity supplements. Both are anti-bacterial, anti-viral, anti-fungal, and supports the T cell immune response within the body.

Cinnamon has its own anti-bacterial and anti-viral properties and is exceptionally warming to the system. Cinnamon is often used to help modulate diabetes response, reducing insulin resistance and warms the body's system.

With the primary component of menthol, mint warms the body and specifically targets bacteria and viruses that may hide in the digestive system. Mint can help increase your digestion allowing the immune system to catch a bacteria or virus before it can invade your body. With 70% of the immune system housed in the gut, menthol supports the whole system's effectiveness.

The combination is a good tasting supplement that helps warm your body, improve your immune response, and supplies you with the right stuff to fight off colds and flu.

Active ingredients

Fermented Hydrolyzed Soy Isoflavones Concentrate (180 mg)

[Increases efficacy of cancer treatment and protects normal cells](#)

Reduce [obesity](#), [inflammation](#), [cardiovascular disease](#), insulin-resistance/type II [diabetes](#), [immune disorders](#)

NANOx Nutrient Blend Oregano, Cinnamon, Mint, Neem (110 mg)

Dosage & How to Take

As a dietary supplement, adults should take two tablets per day or as directed by the health care provider.

Safety and side effects

H951x has an excellent safety rating, with no reported interactions from the supplement. It has a similar safety profile to soy protein drinks.

H951x is not intended to replace any medication or procedures used to treat cancer, viral infections, or illnesses. Do not discontinue treatment or cancer medications without a doctor's permission.

Women who are pregnant, nursing, or any person who is immune compromised should consult their physician before using this product. Certain medications may interact with individual ingredients – talk to your doctor if you take any medications.
