Premium Upgrade Kit II

Triple stitch option for quilting sash patterns

Choose from either single or triple stitch for quilt sashing giving more thickness to your stitches and to let them stand out on your project.
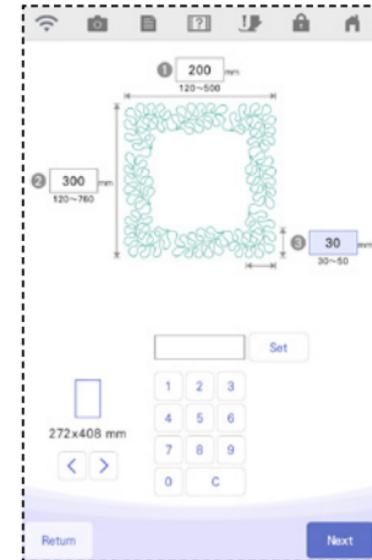

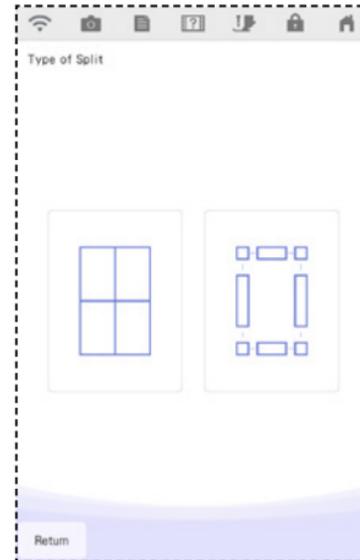

Auto-split of large quilting sashes

Easily connect your patterns for beautiful quilt borders!

Just choose the size of your border and the size of your hoop, and the Luminaire Innov-is XP1 will automatically split the designs in multiple hoopings.

Or, use the Brother-exclusive Hoopnetic Magnetic Sash Frame to simply slide the fabric to the next area to be embroidered.

Embroidery features

Embroidery order editing:
- Switch the order of the patterns for optimal sewing

Easy stippling or echo patterns in embroidery mode :
- Simply select from embroidery edit screen
  (same patterns as on My Design Center)

Background colour adjustment :
- Switch between Light/Dark/Off
- Outline recognition
- Zoom in up to 400%

Embroidery buttonholes

Smaller width for embroidery buttonhole patterns.

Smaller size options added:

- XS - 0,78" / 20 mm
- XXS - 0,4" / 10 mm

# My Design Center decorative fill options

My Design Center

Enjoy more designs with the Brother-exclusive
My Design Center with 6 additional decorative
fill options inspired by geometric shapes,
basket weaves, leaves and bubbles.

End point sewing function

Utilizing the built-in camera-like feature in the InnovEye Plus Technology, you can now stop your stitch in the perfect place by just placing the Snowball End Point Sewing Sticker on your project.

◆ Camera detects the sticker and determine the end point

◆ Use this function for both utility and character decorative stitches

Stop mode -
machine will stop sewing at the sticker position even if in the middle of a sewing pattern

Pattern adjusting mode -
machine will adjust pattern size so that the machine can stop at the end of the pattern
(the pattern size will automatically be adjusted)
