

LITTLE WONDER®

Assembly Instructions for

Crack Cleaning Kit (P/N 6020)

for use with more Little Wonder Edgers

Existing Edger Blade Layout

- 1.* Unscrew the two hex head cap screws (P/N 129C) from the red cast iron cutter head (P/N 126.).
- 2.* Remove the two lock washers (P/N 129D) and two flat washers (P/N 163).
3. Remove the Blade guard (P/N 129B).
4. Remove the 1/2 x 20 nut (P/N 130) from the Cutter Head Shaft.
5. Remove one Blade Washer (P/N 128) and the Edger blade (P/N 129).

*Note: These cap screws and washers will be used to attach the new Brush Guard and complete the assembly. Also keep Blade Washer (P/N 128) and 1/2 x 20 nut (P/N 130). These will be used when the edger blade is reassembled.

After the Blade Guard and Blade have been removed, continue assembly as follows.

6. Make sure ONE Blade washer (P/N 128) is on the Cutter Head Shaft, and up against the Bearing (P/N 124). The flat side of the Blade Washer (P/N 128) must be facing away from the bearing. the side with the step must be against the bearing.
7. Slide the Wire Wheel Brush (P/N 4046) onto the Cutter head Shaft.
8. Attach new 1/2 x 20 Flange Nut (P/N 4051) onto shaft and tighten.
9. Position the new, fully enclosed Brush Guard (P/N 129B-W.17) over the wire wheel brush (P/N 4046).
10. Align the holes in the Brush Guard (P/N 129B-W.17) with those on the Cutter head (P/N 126). Secure with two hex head screws (P/N 129C), lock washers (129D) and flat washers (P/N 163) that you removed from the Blade Guard (P/N 129B) in step one.

To reassemble the Edger Blade and Blade Guard, simply reverse the procedure.
