## **FEATURES & BENEFITS**

- -The Only Spray Systems built with engineered quick-connect fittings, which make assembly, disassembly, cleaning & maintenance a breeze.
- -Balanced Engine Power to Pump Pressure Ratio provides optimal spray pressure while maximizing engine life expectancy
- -Low Oil Shutdown prevents damage to your engine should the oil level become to low
- -Quick Connect tips allow you to optimize your fan pattern, pressure and application rate without any tools
- -Hose Swivel keeps spray hose tangle free during operation
- -Rigid Custom-Made 3-way valve make shifting system from recirculation to spray mode a breeze
- -Engineered to fit in all small to medium sized pick-ups or utility trailers
