

Quick Start Guide

For detailed instructions, please refer to the Uninet IColor 650 Printer User Manual and the Uninet IColor ProRIP User Manual

1. Remove the packing materials and check the components

2. Open the front door and top lid of the printer

3. Uninstall the cartridges to remove the protective orange film from each.

- · Lock the blue lever forward.
- · Reinstall the cartridges.

4. Using one of the provided cables (Network or USB), connect the printer to your PC (USB) or router/switch (network).

- \cdot To set a static IP address for the printer, please refer to the IColor 650 User Manual.
- To connect the printer via Wifi, please refer to the IColor 650 User Manual.

5. The Uninet IColor 650 Digital Color + White Transfer Media Printer has THREE configurations to suit any printing project

These coincide with the 'Print Queues' in the iColor ProRIP (Step 13)

A. Standard CMYK

(Used for traditional CMYK Printing applications)

Slot Order (Front to Back)

B. Spot Color Underprinting

(Used for right side reading applications. Typically printing color on clear on dark papers) White prints first.

Slot Order (Front to Back)

C. Spot Color Overprinting

(Used for reverse printing applications. Typically garment decoration) White prints last.

Slot Order (Front to Back)

6. Install the Uninet IColor ProRIP (stored on the provided dongle)

 $\boldsymbol{\cdot}$ Choose your language and follow the install steps

Please disable/uninstall any Anti Virus software before installation of the UNINET ProRIP

SetUp

IColor ProRIP Setup

Agree to license terms and select Install.

^{*} Please note the blue handle on the white cartridge is already in the locked position *

7. Uninet IColor ProRIP software

First time Setup

- · Ensure the ProRIP dongle is inserted and you are connected to the internet (required)
- · Launch the software
- · Set unit of measure and decimal places, then select OK.

8. ProRIP opens, the Queue Wizard will begin the installation of the support files for your IColor 650 printer

Select Next

· Select Install Printer

9. Select the IColor 650 printer from the support menu and select 'OK'

10. Device package Search

- · Select 'Search' for new printer package
- · Select 'Next' to continue the installation

11. Select your 'Port' from the menu

 Network or USB (Choose TCP/IP for network) - If connected via USB, choose the printer

12. Port Configuration (network)

- If connected via network, once TCP/IP is selected, the software will poll your network for available printers.
- *** Be sure to set a static IP address for your printer so that the IP addres does not change later. If this occurs, you will need to repeat this step***

- If you need to change or reset the ports in the future: Click Queue >> Manage Queues to view, update or change the port settings.

13. Select the proper Print Queue for your project

- A. Select your 'Print Que' and 'Print Mode'
 - The 'Print Modes' have preset values for white coverage, choke, paper size, paper tray and mirror settings

These can be modified as needed

14. Import + Print Graphic

- A. Three ways to import graphics
 - 1. Select the 'green plus' icon and navigating to the proper folder.
 - 2. Select File > Import File

- B. Select the desired file
- C. Select 'Print' icon in the menu bar.
