MILK FLIGHT

Experience three unique flavor combinations in this high percentage cacao milk chocolate tasting flight from the Rupa Rupa region of Peru. Flavors include:

Mango Plantain – Awarded GOLD in 2021 by the Chocolate Alliance. Diced mango and plantain chips are clarified with a pinch of sea salt, and a dash of habanero delivers a piquant finish that lingers at the back of the tongue.

Edamame Sea Salt – Inspired by Asian Fusion cuisine, we add crunchy, toasted edamame to a creamy dark milk chocolate.

Crisp Quinoa Sesame – An unexpected combination of quinoa and toasted sesame will transform perceptions of the classic chocolate crisp.

Together they deliver a sweet, salty, and undeniably satisfying adventure in 47% cacao dark milk chocolate. Most milk chocolates don't taste much like cacao, but you can pick up on its unique fruity notes in our milk flight which is both interesting and delicious. Enjoy three new flavors in this unexpected and creamy milk chocolate flight!

DARK FLIGHT

Explore the complexity of Peruvian cacao in three distinctively smooth dark chocolate bars. Flavors include:

85% Single Varietal Contamana Cacao – 2022 soft™ award-winning, and single-origin chocolate from Quillabamba, in the Cusco valley of Peru.

61% Smoked Alaskan Sea Salt – Made by smoking Alaska pure salt flakes over burning Alder wood, this unique ingredient lends a complex yet balanced flavor to our smooth 61% Peruvian dark cacao chocolate.

72% Black Fig Pistachio – Fig leads in the flavor profile with some subtle savory nut and mellow dark cherry notes. The pistachio delivers a light bitterness, very soft and complementary to the sweet fig.

Each chocolate bar in this flight delivers a unique experience with varying levels of cacao, flavor depth, and balanced flavor combinations. Enjoy three exquisite dark chocolates in this unexpected, sensory and smooth chocolate flight!
