

BOUDET

— THE FRUIT SINCE 1987 —

Boudet jams and preserves are produced in South-West France where there is an abundant supply of **sun-ripened local fruit** and the culinary tradition runs deep. Over 35 years strong, the old family recipes are slowly heated in a traditional cooking pot and gently stirred to preserve the rich natural flavor and color of each jam.

Boudet preserves have **no less than 63% fruit** content and has earned multiple taste awards.

It is a unique know-how at each stage of production and the rigorous choice of fruits picked at full maturity that make up the secret of the brand!
