

The Isle of Mull is renowned for wild and unspoilt landscapes and its welcoming islanders. Ingredients grown organically create a sustainable nutrient rich ecosystem on and around farms. These are the farms that grow wheat for the flour and grass for the cows to graze that will create milk used for butter to use in Island Bakery biscuits.

Specially made ovens using local wood chip from Mull's timber plantations gently heat the small batch made biscuits to a perfect bake.

**Organic Lemon
Melts**
12 x 4.7oz
