

Summer House drinks take on the *classic lemonade* by using natural botanical infusions from their walled garden and fresh fruit from local *Scottish farmers*. Established in 2014, this *family owned* business knows that quality is the most important ingredient. Their lemonades are produced in *small artisanal batches* using 5 ingredients or less. Fused with, pure and crisp lightly sparkling Scottish water; sustainably sourced from Scotlands high mountain peaks, amongst the *finest quality* in the world!! Refresh your summer with these crisp lemonades or use to enhance your favorite cocktail!

**Summerhouse supports British farmers by using all natural, British beet sugar in all of their drinks!**
