Newsletter - August 2023

Our first Open Day was a huge success - thank you to all those who attended!

With a turnout of nearly 50 cars, it was a fantastic day - plus our BBQ helped raise money for our local Sea Scouts group. It was great to see so many vehicles and owners present - some from several hundred miles away.

We'll be hosting another event in the future (although no date has yet been set), so keep an eye out for details!

Our next large delivery of both custom-made and New Old Stock is here! This delivery has proven very popular with around 30% of stock already being sold - if you've got your eye on something make sure you snap it up before it's gone. Our new range for the MG6 has proven a top seller, with both Front and Rear Lower Arms being the items of choice so far.

We're continuing to work on our range of parts for the 'modern era' of MG Rover vehicles (1995-2005) with several recent additions along with some new and exciting parts in the pipeline too.

New additions in the last month include Coil Packs for the early VVC engines (NEC100691), a full set of A/C O Rings for all Rover 75 and MG ZT models along with MG TF Rear Trailing Arms complete with Drop Link (RGG000243 / RGG000253).

Over the next few months we'll be complementing these additions with A/C O Ring Kits for the 45/ZS, an expanded collection of suspension nuts and bolts for most models and a range of coolant pipes and hoses for many vehicles to boot.

It's certainly a great time to be a member of the MG Rover community!

Finally, we're going to be attending the MG100 event at Beaulieu this September - if you're attending, come and introduce yourself! We'll be showcasing the majority of our fleet and would love to meet you.

The event is on the 30th September - find out more at beaulieu.co.uk/events/mg-rally-100
