## Newsletter - June 2023

**Thank you for your order - here's what we're up to this month!**

O Ring only - elbow not included

Own an MG6? We're rapidly expanding our range for these cars! We currently stock a wide range of products for the 6 including the O Ring for the Coolant Elbow on the 1.8 models (a common cause of coolant loss) alongside suspension parts such as Front Lower Arms and Drop Links.

As part of our huge incoming delivery we'll be adding Rear Lower Arms as well as Suspension Springs to our line-up.

The Rear Trailing Arm Toe In Brackets for the 75 / ZT were unavailable for many years - however we've had a batch made up just for us!

Made to the original factory specifications, these are ideal if yours have seen better days.

Also available are the bolts for this bracket which have been NLA elsewhere for around 10 years.

Air Conditioning not functioning correctly? Our cars came with very good A/C systems fitted from the factory; when working correctly they're capable of creating an Arctic blizzard even on the hottest days!

Stay cool this summer by making sure yours is in tip-top condition - we have a huge range of A/C components from Compressors through to Condensers (and lots more in-between).

While we're on the topic of keeping cool, there's never been a more important time to check your car's cooling system is in good shape.

During the hot summer months it's vital that everything is working as it should be - we have a fantastic range of parts to keep your temperature gauge exactly where it should be in hot weather. From Coolant Caps to Waterpumps, we have it all!

QUALITY K SERIES WATERPUMP  
FITS 1.1 / 1.4 / 1.6 / 1.8  
INCLUDES NEW SEAL

**We have plenty more on our Website!**  
**Visit [www.dmgrs.co.uk](http://www.dmgrs.co.uk) for our entire collection.**

Remember - you can use discount code NL5 at checkout for 5% off your next order.
