## **Newsletter - May 2023**

Thank you for your order - here's what we're up to this month!

We're currently waiting for another large delivery of both SAIC MG stock and custommade products - including our fantastic Rear Upper Arms for the 75 / ZT!

They're due with us in the next 4-6 weeks, and will be priced as competitively as always.

With an inside-and-out coating along with thicker metal, they're perfect for keeping your MG Rover on the road for many years.

The K-Series engine is a marvellous piece of engineering - however as we all know can suffer with Head Gasket issues.

We have a huge selection of Head Gasket Kits along with a couple of hand-written guides published on our Website to help you find the right kit for your car.

Our new range of Brake Calipers and CV Joints are proving popular - from a trusted UK supplier and at a fantastic price, these are ideal if you're looking to replace either of these parts.

With Calipers starting at £44.99 and CV Joints from £21.49, they're friendly on the pocket while being excellent in quality.

We also keep Cambelt Kits for most engine types in stock - from the 1.1L K Series right through to the 2.0L Diesel and KV6.

You can customise your kit with the addition of a Waterpump, Seals and other parts you may wish to change at the same time.

We have plenty more on our Website! Visit www.dmgrs.co.uk for our entire collection.
