- 4 colour process  
*(when the file is an image or in opacity colours)*

## Document

|              |                   |
|--------------|-------------------|
| Software     | Adobe Illustrator |
| Template     | 10% scale         |
| Colours Mode | CMYK              |

Please refrain from altering the template size.  
Select your preferred Pantone Colours from the option above.

## Colours note

Colour management will be done on a "best effort" basis for the chosen specified Pantone Colours (PMS). If the file is a vector with no PMS provided or an image, it will be printed in a full-colour process (CMYK). We cannot be held responsible for colour control when printed in "CMYK." Please note that the colours might appear differently when printed on different substrates and be brighter when exposed to sunlight. **All Custom-Made Products are non-refundable.**

## Art Guidelines

|                 |                      |
|-----------------|----------------------|
| Images          | Embedded, 300 dpi    |
| Fonts           | Outlined             |
| Colour Swatches | Pantone Solid Coated |
| File save as    | .ai .eps .pdf        |
