

B-bot Easter Egg Programming

Can you help B-bot find the correct Easter Egg?

B-bot is looking for an Easter egg which contains a special token inside. Follow the computer program instructions to identify the special egg.

Note: B-bot has used Python as the programming language, which is one of the most well-known programming languages.

```
def function_Where_Is-Token(Egg):  
    if purple:  
        if spots:  
            if stripes:  
                print("Egg is Found. Mission accomplished!")  
            else:  
                print("Egg not found!")  
        else:  
            print("Egg is still not found!")  
    else:  
        print("Egg is not there!")
```
