Acceptance Qualifications

Acceptance Criteria for Cannabidiol (CBD) Oil and Products Containing CBD

The Postal Service has received an increasing number of requests to transport CBD oil and products containing CBD in Postal Service networks.

Acceptance Criteria:

Any mailer who presents CBD oil or other CBD products derived from industrial hemp for mailing must demonstrate that their mailing is compliant with the Agricultural Act of 2014 by providing the following documentation:

1. A signed self-certification statement, subject to False Statements/Concealment (18 U.S.C. § 1001). Statements must be printed on the mailer's own letterhead, must be signed by the mailer, and must include the text: *"I certify that all information furnished in this letter and supporting documents are accurate, truthful, and complete. I understand that anyone who furnishes false or misleading information or omits information relating to this certification may be subject to criminal and/or civil penalties, including fines and imprisonment."*
2. The industrial hemp producer possesses a license issued by the Department of Agriculture, for the state where the Post Office/acceptance unit is located, which includes documentation identifying the producer by name and showing the mailer is authorized by the registered producer to market products manufactured by that producer.
3. The industrial hemp, or products produced from industrial hemp, contains a delta-9 THC concentration of not more than 0.3% on a dry weight basis.

Mailers must provide, at a minimum, a signed self-certification statement on their own letterhead, a document showing the mailer has authorization to market CBD products by the entity registered or licensed by the State, and a lab report detailing the THC concentration of the CBD product.

[Back To The Top](#)

Acceptance units should obtain copies of the above-described documentation and retain it until the expiration date shown on the state Department of Agriculture license. Although the Postal Service may confirm the mailer's submission of the self-certification and supporting documentation described above, acceptance of a mailing does not constitute a delamination of mailability.

Note: Postal employees should be aware that the Agricultural Improvement Act of 2018 (H.R.2, Pub. L. 115-334) ("2018 Farm Bill") was recently signed into law. This legislation removes industrial hemp from

[Back To The Top](#)

regulation under the Controlled Substances Act. Once the 2018 Farm Bill is fully implemented, it will modify the mailability criteria for CBD and other cannabis products. As a result, the instructions provided above are temporary and will be revised in the future.

Cannabinoid Analysis

Date/Time Extracted: 04/03/19 14:49
 Date/Time Analyzed: 04/03/19 20:27

Analysis Method/SOP: SOP.T.40.020

Cannabinoids	LOQ(%)	mg/g	% weight
Total CBD ((CBDA*0.877)+CBD)		153	15.3
THCA	0.050	5.95	0.595
delta 9-THC	0.050	< LOQ	< LOQ
delta 8-THC	0.050	< LOQ	< LOQ
CBDA	0.050	170	17.0
CBD	0.050	4.25	0.425
CBN	0.050	3.54	0.354
CBG	0.050	1.04	0.104
CBC	0.050	< LOQ	< LOQ
Sum of tested Cannabinoids	0.050	163	16.3

Cannabinoid Profile

"Total THC" and "Total CBD" are calculated values and are an Oregon reporting requirement (OAR 333-064-0100). For Cannabinoid analysis, only delta 9-THC, THCA, CBD, CBDA are ORELAP accredited analytes. Cannabinoid values reported for plant matter are dry weight corrected; Oregon Water Activity action level is 0.65Aw and Oregon Moisture Content action level is 15%, Samples above limit will be highlighted RED; FD = Field Duplicate; LOQ = Limit of Quantitation.
