A Day Out Blanket

Designed By Sarah Hatton WEEK 8 - Myddleton Lane

Hints and Tips

This is a fabulous square which uses the same principles as Week 4, Stone Pit Lane. I love cables and the simple one stitch cable at each side completely stole my heart.

Remember that the two bigger side cables are meandering cables which change direction in the middle of the square. You can do symmetrical cables if you would prefer!

- I did a cable cast on and used 5mm needles. My squares measured 19cm each when finished.
- Remember to work row 1 from the written pattern before you start with the chart.
- To increase purlwise, purl into the back of the stitch first.
- If you are used to different cable terminology write your preferred term on the symbols at the bottom of the chart. You can even write them on the chart in the appropriate place.
- Use stitch markers to make sure you pick up and knit your stitches evenly.
