Basic Bag Kit

Bottom:

1st row: Chain 15x and chain one more to move.

2nd row: Crochet roundabout 1x sc in every stitch starting by the 15th chain, increasing at the corners by making 3x sc into the same hole. Close with sl st

3rd row: Chain 1, insert the hook into the middle part of each sc from previous row and crochet sc. That will give to the bag an extra stability and style. Crochet sc roundabout, increase at the corner by making 2x sc into every sc. (see scheme)

4th row: Chain 1, crochet roundabout sc, by the corner part for increase-ment crochet into first sc 1x sc into next double sc, repeat this by all the sc's at the corners. Close with sl st.

Now the bottom is completed, cut the remaining yarn and hide it. Take the other color of t-shirt yarn to crochet the body of the bag.

Body:

Crochet into the front loop from the all sc of last row again sc to form the base line for the height. Without any increasment, including on corners, crochet in each hole a sc. Continue to crochet in spiral until the wall height of the bag reaches the desired size. The last two rows can crocheted with the bottom color depend on your wish. Do not forget to close up on every row with sl st.

Determine the places for the handles, chain 10x and skip sc's and crochet again sc until to the other handle chain 10x continue to crochet sc. Close with sl st.

Crochet one more row sc and by the handles part fill the chain with 10x sc. In our case, they are totally 28 rows worked. But you can crochet as lang as you want.

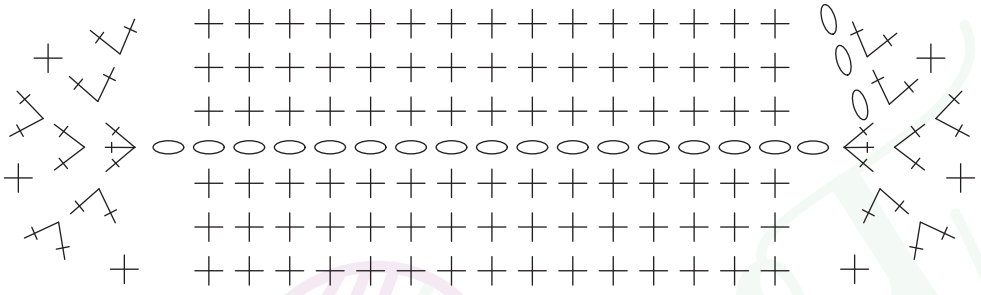

Finally take again the other color and make into all stitches sl st, that means the yarn is pulled out of each hole without taking again yarn over hook. That will give a smoother and firmer finish to the bag.

Your basic bag is ready to use.
