You should start to crochet the basket with bottom:

1st row: Make a magic ring and fill this with 5x sc.

Then fasten with sl st into the first sc hole and make a chain to start to an upper row.

2nd row: Crochet in every sc 2x sc in the same stitch and fasten with sl st into the first sc. Here you should be careful not to crochet the sc's in the upper holes of the sc but exactly in the middle of a sc.

This gives your basket a special structure.

Then make a chain and start to the next row.

You should do this process on every row.

3rd row: repeat the 2nd row (in each sc double sc)

4th row: in every sc again a single sc

5th row: in the first sc a single sc and in the next one 2x sc into the same stitch, repeat this until last sc.

6th row: in each sc again singlesc

7th row: 2x single sc, 1x double sc

8th row: in each sc a single sc

9th row: 3x single sc, 1x double sc

10th row: Now you have finished the bottom and at this row the base for the height should be crocheted.

For this purpose, the bottom should be turned over and in each sc holes crochet wrong stitches.

That means, the yarn is pulled out of each hole without taking again yarn on the crochet hook.

11th row: Turn the bottom over again and crochet all around in spiral sc in the holes of the wrong stitches.

After each row end, the sl st and then a chain stitch should not be forgotten.

12th-22nd Row: Crochet in spiral around the basket sc. The height of the basket you can decide how you wish.

Crochet in the last row around the basket into the holes of each sc a chain like a wrong stitch.

This will make your basket stronger.

Your crochet basket of t-shirt yarn is finished.

The finished basket has a diameter of 22 cm and a height of 10 cm.
