Hanging Basket

Chainy Cotton Yarn

Bottom:

You should start to crochet the basket by the bottom:

1st row: Make a magic ring and fill this with 8x sc. To make a sc insert the hook into the magic ring, bring up a loop and take yarn over hook then pull it through the two loops. Then close with sl st into first sc.

2nd row: Chain 1x, insert the hook into each sc hole from previous row and crochet 2x sc in the same stitch (16x sc in total). At the end of the row close with sl st in the first sc. To move to an upper row the closing with a sl st and then making 1x chain must be done on each row.

3rd row: Into the first sc 1x sc and into the next one 2x sc, repeat this until to the last sc hole.

4th row: 2x single sc, 1x double sc.

5th row: 3x single sc, 1x double sc.

6th row: 4x single sc, 1x double sc.

7th row: 1x single sc into each hole.

8th row: 5x single, 1x double sc.

9th row: 6x single, 1x double sc.

10th row: 7x single, 1x double sc and the base of basket is finished.

Body:

11th row: At this row the base for the height should be crocheted. For this purpose, insert the crochet hook into the upper front single wings of each sc and crochet until end of the row like this with sc.

12th-24th row: Crochet roundabout 1x sc over each sc.

25th row: At this row the handles should be crocheted therefore set up the places for the handles. Continue to crochet sc, by the handle part chain 20x, skip 12x sc from prev row and insert the crochet hook into 13th sc. Continue to crochet as usual until to the other handle part. Repeat the same process as on the first handle.

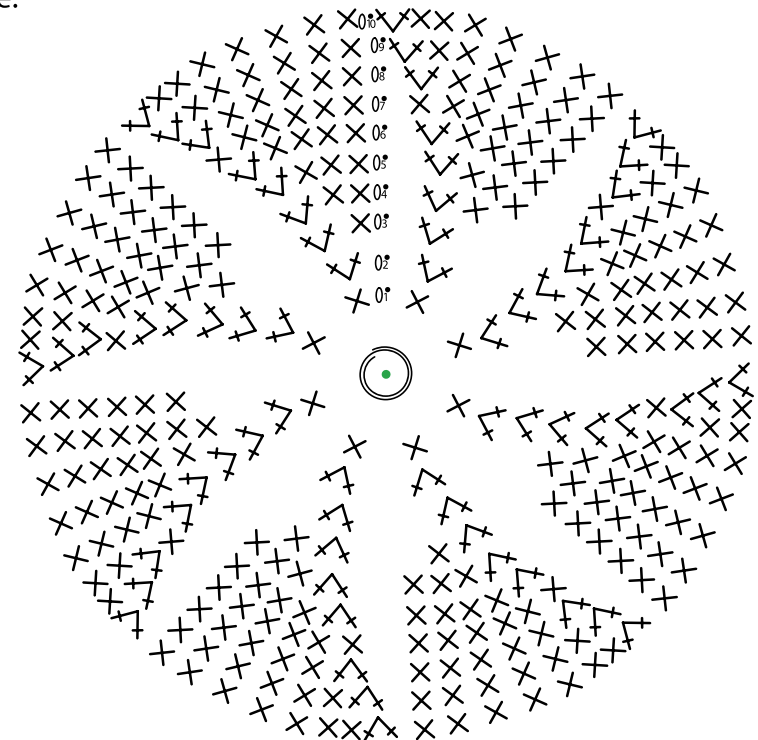

26th row: Continue to crochet sc, fill also the handles with 22x sc.

27th row: At last row make into all stitches sl st, that means the yarn is pulled out of each hole without taking again yarn over hook. That will give a smoother and firmer finish to the bag.

The hanging basket kit is ready to use. You can crochet a second hanging basket with the remaining yarn in the same way.
