

TECHNICAL DATA SHEET VACUUM PACKAGING MACHINES

DESCRIPTION

The models of the Idea line catches the eye for cutting-edge design and the smart functions of the 5"-TFT touchscreen, which transform the concept of vacuum packaging machine into "Sous Vide Robot": specific "Chef "and deaeration cycles allow food processing, which make it a versatile and multi-purpose work tool, suitable for the catering sector.

SEALING BAR 16.1 inch VACUUM PUMP 706 cf/h ABSOLUTE SENSOR CONTROL

FEATURES

- Oil lubricated 706 cf/h (20 m³/h) vacuum pump ;
- Vacuum level control through high precision absolute-type vacuum sensor, which does not require calibration; max vacuum 99,8% (2 millibar);
- 16,1" sealing bar, easily removable for cleaning;
- Hydroformed, brilliant stainless steel vacuum chamber with constant thickness, easy to clean being free of edges and receptacles;
- Standard inert gas injection with 2 injection nozzles with "Gasplus" system, which allows to reach values up to 90% of inert gas for products extremely sensitive to crushing;
- Standard "Softair" slow air return at the end of the cylce;
- Waterproof 5"-TFT touchscreen control panel, protected by scratch-resistant tempered glass, resistant to liquids, humidity, dirt and dust;
- 10 editable user programs, with assignable names; 5 settable display languages;
- 9 preset "Chef" cycles for food processing;
- 3 specific preset cycles with inert gas injection;
- 3 specific preset cycles for vacuum containers;
- 2 generic preset cycles for preservation or sous vide cooking;
- 1 programmable deaeration ("Degas") program on eight vacuum phases and eight pause phases;
- "H2Out" pump oil dehumidification cycle,
- Notice of need for oil change, "H2OUT" cycle execution or product cooling need in case of use of insufficiently cooled wet products;
- Menu accessible to technical assistance for parameter adjustment and reading of cycle and maintenance carried out;
- High-thickness blued PMMA (Plexiglass) lid with polished and rounded edges; opens automatically at the end of the cycle;
- Lowering system of the lid at the end of the work in the rest position by releasing the rear gas spring, which allows to release the tension on the gas spring and on the lid;
- Access for easy maintenance through front opening of the casing;
- Standard "Easy" accessory for external vacuum in embossed bags;
- 3 PE-filling plates for product adjustment and cycle speed up;

ACCESSORIES (NOT INCLUDED)

- Bags for storage, cooking and "cook & chill"; embossed bags;
- Stainless steel cart with castors and shelf;
- Inclined stainless steel plate for liquid packing;
- Stainless steel vacuum containers; suction device.
