

HONDA CBR600 99-00 F4 / 04-05 F4i

***CAUTION* :** **STAINLESS STEEL EDGES MAY BE SHARP!!!**

***NOTE* :** 99-00 F4 DOES NOT HAVE GRAB BAR
04-05 F4i HAS A WELDED CROSS MEMBER

REMOVE: SEAT, GRAB BAR (F4i Model: 4 allen screws under silver caps),
Tail section (2 phillips screws on top, 2 plastic rivets on bottom, 2
allen screws on sides, unplug tail light).

DISCONNECT: Turn signals and license light (push down on levers as you pull
apart).

REMOVE: Turn signals (nut on back), license light (2 nuts on back of fender,
then 2 brass screws), seat lock (pull c-clip up, turn assembly
counter clockwise as you remove cable).

CUT: Fender up sides (just below edge) FIG E, across bottom (1/4 inch
in front of tabs) FIG'S F,G *NOTE: F4 Model's cross member
may be removed for easier access.

MOUNT: Side mounts FIG G (exchange stock bolts with longer 25mm
bolts, put 2 washers behind brackets as spacers) *HAND
TIGHTEN*

ASSEMBLE: Rest of kit as shown in FIG D (key way on side of lock will need
to be slightly rounded with a knife. Before sliding up through
license mount, main pan, license light mount, secure with c-clip).

MOUNT: Entire kit to side mounts (use 6x16 allen bolts, push up tight and
align before tightening), tighten bolts on side mounts at this time).

CONNECT: Seat latch cable.

DRILL: 1/4" holes as shown in FIG C (insert 6x12 allen bolts and tighten).

INSTALL: Turn signals (run wires up through grommets *Wires may need to
be lubed with light oil or spit).

PLUG IN: Turn signals and license light (set wiring harness on top of license
light).

INSTALL: Tail section (plug tail lights in and secure with stock hardware).

CHECK: Lighting and seat latch.

SECURE: Seat
