## Papercut Ketubah Design Styles

We offer two papercut ketubah design styles: the **Classic Papercut Design** and the **Papercut Border Design**. Depending on the design, papercut ketubot are available in 13"x19", 15"x22", 17"x22", or circular 17"x17". Please review the information below to learn more about the papercut design styles.

**Classic Papercut Design:** The classic papercut design includes two layers. The top layer is a laser cut from soft white cotton paper, and the bottom layer is a digital giclée print on cotton, washi, or bookcloth paper.

**Papercut Border Design (printed):** The printed papercut border has a printed background color behind the laser-cut design. This ketubah option includes two layers: the top layer is a laser cut from soft white cotton paper, and the bottom layer is a digital giclée print on cotton paper.

**Papercut Border Design (metallic paper):** The metallic papercut border has handmade metallic paper under the laser-cut design. This papercut ketubah option includes three layers. The top layer is a laser cut from soft white cotton paper, the second layer is metallic paper, and the bottom layer is a digital giclée print on cotton paper.

## Giclée Printing

Giclée printing is inkjet printing that produces high-quality, long-lasting digital prints on any of our curated paper options. We use Epson wide-format printers with UltraChrome HDX® archival inks. UltraChrome HDX® is a pigment-based ink that can last 200+ years without fading. Please note that ketubah texts and designs are printed on a professional digital printer and are not hand-painted or hand-written in calligraphy.

## Ketubah Paper Options

We print all background colors on your selected paper choice. Therefore, the colors will vary once printed, depending on which paper you choose (cotton, washi, or bookcloth). Except for metallic paper for papercut border designs, we do not use colored paper for ketubah prints or papercuts.

## Font Styles

We offer four different font style options for your ketubah text design. Please view the font style options on our website.

## Paper Samples

If time allows, paper samples are available upon request. Samples are \$15.00 (available only to shipping addresses within the USA). Paper samples include cotton, washi, bookcloth, and metallic papers. Please note that paper samples are samples of the paper options without printed text or printed color swatches. Please send us an email if you would like to purchase paper samples.

## Ketubah Signing Pen

All ketubah orders include an archival pen for signing. The pen's ink color will depend on the background color and the type of paper you have selected.

# PAPER UNDERLAY OPTIONS

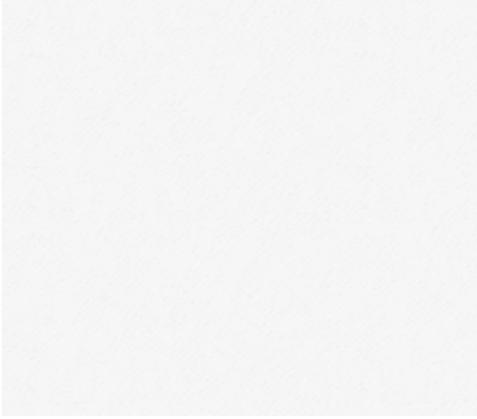

We print all background colors on your selected paper underlay choice. Therefore, the colors will vary once printed, depending on which paper you choose (cotton, washi, or bookcloth). Except for metallic paper for papercut border designs, we do not use colored paper for ketubah prints or papercuts. You can make your paper underlay and background color choices on the [Papercut Ketubah Order Form](#).

## PAPER UNDERLAY OPTIONS

*Cotton Paper* is acid-free and lignin-free fine art paper with a smooth 100% cotton base and a natural soft white surface. It prints beautifully vibrant and bold colors. Cotton paper underlay is available for all papercut ketubah sizes and design styles.

*Japanese Washi Paper* comes from Kenaf fibers with tiny ribbons woven throughout the paper with a decorative surface. Japanese washi paper is acid-free and OBA-free base paper. The Japanese washi paper underlay is available only for the 13"x19" papercut ketubah size. The additional charge for Japanese washi paper is \$40.00.

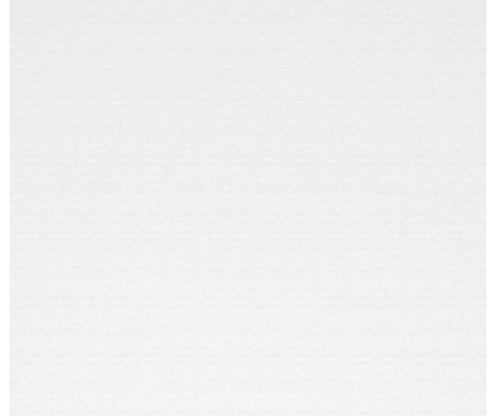

*Bookcloth Paper* is paper-backed bookcloth fabric. Its fabric texture creates a vintage look with muted colors. The bookcloth paper underlay is available only for the 13"x19" papercut ketubah size. The additional charge for bookcloth paper is \$40.00.

## METALLIC PAPER OPTIONS

The metallic papercut border ketubah has handmade metallic paper under the laser-cut design. This papercut ketubah option includes three layers. The top layer is a laser cut from soft white cotton paper, the second layer is metallic paper, and the bottom layer is a digital giclée print on cotton paper. Metallic papers are handmade in Nepal and are acid-free. Due to the handmade characteristics of the metallic paper, there may be some slight faults in the finish.

# PAPERCUT CLASSIC DESIGN: CIRCULAR GEOMETRIC

When ordering a circular papercut design, it's crucial to consider the space limitations. For lengthy ketubah texts, we advise choosing either Hebrew or English. Please note that we can only include up to five witness lines, including signature lines for the bride, groom, and officiant. Upon receiving your order form, we'll inform you if any changes to your selections are necessary. If you opt for a poetic verse, it will be in Hebrew only unless you've chosen an English-only circular ketubah. Please be aware that custom poetic verses are unavailable for the circular papercut design.
