Waldorf Grade 7 Book Recommendations

Seventh graders are in the throes of the mighty force of puberty and the birth of the last of the “finer bodies” that some would call the “aura” of the human being. No births are quiet and the chatter in a classroom is the sound that begins in sixth grade and lasts through eighth and signals the arrival of a new birth, new capacities, and new challenges. The growth at this time in a young human being rivals the growth of a newborn and will not be repeated for the rest of life. It’s a lot to manage and requires empathy as well as organization to help youngsters through this time. New capacities of discernment and positive judgement will be forthcoming along with breakthroughs that are, at times, remarkable in their light, strength, and accuracy. At other times, a teacher or parent can be left feeling that absolutely nothing has been taught or retained in all the preceding years, so blank the stares can be in response to the recalling of a lesson long ago!

The adage, “Growth stunts consciousness; consciousness stunts growth,” is helpful to remember. The key is to create a loving distance between you and your youngster(s) and insist on completion of tasks before agreeing to any “bargains.” We work at this time on “contracts toward increasing responsibility.” Much complaining might be present and should be met with sympathy but insistence on follow up to work that isn’t yet finished. Once children engage with their will, they feel better. This lesson that work eases pain and creates a feeling of accomplishment is a skill for life. And it is a gift. It also encourages self-responsibility and avoids indulging the complaints, the dwelling in pain, the inevitable upset we can all remember from this time. Compassion is in order; but also, a strictness of agreements and completion of work assigned — chores, homework, and emotional agreements — all!

Exploration around the globe, and the Renaissance, are two strong components of the seventh-grade curriculum. The youngster is now capable of imagining all the way around the world and of exercising the considerable artistic skills practiced daily in Waldorf schools. These both should be implemented and celebrated in grade seven.

The opportunity in 2020, following the “Black Lives Matter” events, is to teach history as honestly as possible, less like the persistent narrative in North America which tends toward white men as heroes and toward downplaying colonization and slavery. This needs to be done with care to not burden the young soul too early with such issues. There is time enough for this in high school, when the astral body has fully arrived. Truthfulness need not blame or create a culture of despair. And there must be mindfulness always about the young people entrusted to you — and their heritage. You will find that the Renaissance was also present in the Ming Dynasty and in India and South America and can be told from directions appropriate for those in your class or in your care.
For Waldorf Teachers and Parents

- *A Handbook for Waldorf Class Teachers* Kevin Avison
- *Assessment for Learning in Waldorf Classrooms* Sara Ciborski & Helen-Ann Ireland
- *Awakening Intelligence* Magda Lisseau
- *Balance in Teaching* Rudolf Steiner
- *Education Teaching, and Practical Life* Rudolf Steiner
- *Evaluation, Homework, and Teacher’s Support* David Mitchell, ed.
- *Finding Your Self* Torin Finser
- *From Images to Thinking* David Mitchell, ed.
- *Immersion Learning: A Travelogue* Frans Lutters
- *Kinesthetic Learning for Adolescents* Leonore Russell, ed.
- *Leaving Room for the Angels* Reg Down
- *Rubicon* Monica Ruef and Rudolf Steiner
- *Rudolf Steiner’s Observations on Adolescence* David Mitchell & Christopher Clouder, eds
- *Second Grade Development, Observation and Assessment* Else Gottgens (it can be useful, in sections, for assessing at any age)
- *Solving the Riddle of the Child* Christof Wiechert
- *Tapestry of a Waldorf Curriculum* Tobias Richer
- *Tending the Spark* Betty Staley
- *Trailing Clouds of Glory* Douglas Gerwin
