

M.S

SKINCARE

ABOUT

M.S. Skincare is an *american luxury skincare & lifestyle brand* built on the core belief that *all things are interconnected*.

Borne of founder Anit Hora's Indian heritage, the story of M.S Skincare officially began in 2012 but has been a lifetime in the making.

Guided by the wisdom of Ayurveda, we believe that skin is a reflection of its ecosystem, both inner and outer. M.S Skincare is **Modern Ayurvedic Living**.

(Ayur) Means Life
(Veda) Means Knowledge Or Science

OUR FOUNDER

Anit Hora

Born in India and raised in the vibrant city of New York, M.S. Skincare founder Anit Hora merged her two cultures into one special collection.

“ While being an esthetician at top New York spas kept me busy, I found myself making Ayurvedic and herbal skincare concoctions at home for friends and family. For me, it wasn't solely about the skin, it was a broader, holistic approach. A synergy that included both wholesome, potent ingredients (that I couldn't find anywhere else!) as well as a return to rituals that honored body, mind, and spirit. ”

quality & VALUES

Sourcing

We choose ethically sourced ingredients of uncompromising quality from conscientious artisanal suppliers.

We scrutinize all options for information on health and safety hazards including hormone disruption, toxicity and infertility.

Packaging

Everything from our tissue paper to wrapping materials is selected with sustainability in mind.

Our tissue paper supplier contributes to global reforestation, our wrap is biodegradable, our packing tape is paper-based and our partially recycled packaging boxes are recyclable.
