# Making everyday life a bit more beautiful

Step into a world where design meets purpose in Stelton's latest catalog. Our Spring Collection SS24 invites you to rediscover the joy in the everyday, as we fuse form and function seamlessly. International designers have crafted each piece, ensuring a perfect blend of aesthetics and utility. Elevate your surroundings with our curated essentials, transforming your home into a sanctuary of style and practicality.

Welcome to a season of sophistication and simplicity with Stelton—where every detail tells a tale of elegance.

# Made in Denmark

The EM77 vacuum jug is a renowned design icon, featuring an elegant composition that seamlessly blends perfect form and function. Exhibited in museums globally, this iconic jug, crafted from ABS plastic, has been produced in Denmark since 1977, available in an extensive palette of over 100 colors.

Inspired by the iconic EM77 thermos design, the relaunched EM tray and jug with lid epitomize stylish serving in the Stelton EM series. Crafted in Denmark, they seamlessly blend form and function with timeless elegance.

# Designed to last a lifetime

„My way of designing is not an intellectual process. My ideas are borne out of my own needs. I don't want to complicate things, only to make every-day life a little easier.“

- Erik Magnussen, Designer

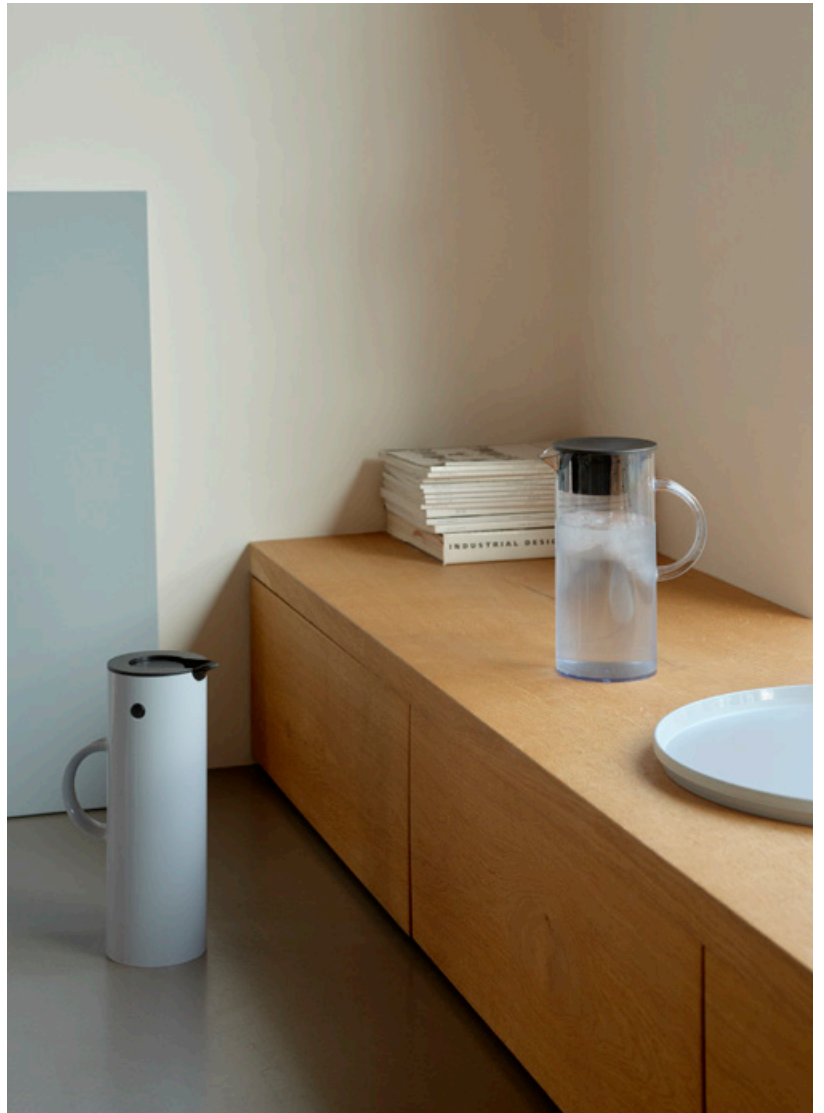

The EM77 vacuum jug was designed to last a lifetime, as all the components can be replaced if they should break. This extends the service life of the vacuum jug, thereby benefiting the environment.

# Feeling of home wherever you are

Showcasing hues like Cloud, Dusty Green, and Warm Sand, capture the essence of Scandinavian nature. From the clear skies to deep forests and coastal beaches, these hues seamlessly blend with the region's beauty, adding a natural touch to any space.

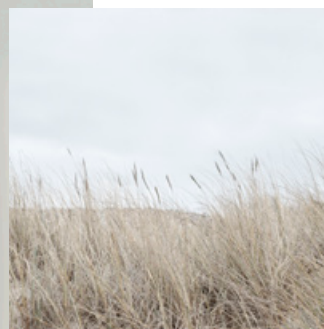

These colors elegantly merge with nature's own palette, adding subtle beauty to any home inspired by Scandinavian aesthetics.

# Nuances of nature

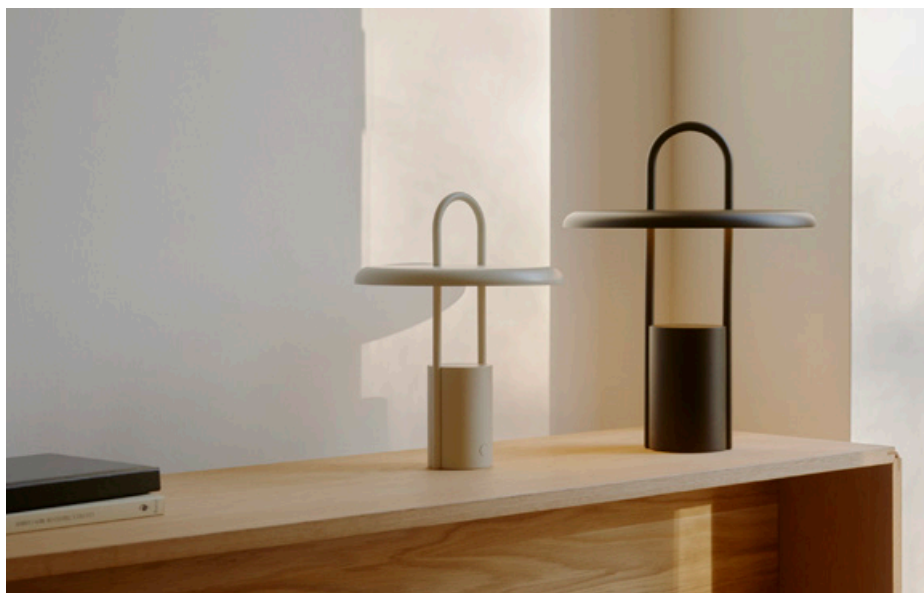

The light shades inspired by nature help to create a sense of calm in the home, allowing us to relax and recharge—preferably in the company of a good cup of coffee or tea from the vacuum jug.

A bread bag finishes the table setting on a Sunday morning, for brunch, lunch or dinner. The spacious bread bag is perfect for serving both loafs, rolls and Danish.

# A luminous design icon

With its pleasant light, Pier is designed to create a sense of cosiness both indoors and outdoors, and the handle at the top allows for easy portability. Depending on the atmosphere you want to create, you can easily vary between three brightness levels via the soft-touch button. The Pier portable LED lamp in sand and black are available in two sizes; 25 and 33.5 cm.

Stelton's new brass Pier LED-lamp. With its sophisticated design and warm finish, this lamp adds a touch of luxury to any space.

Brushed  
brass  
edition

Brushed brass is a stylish and sophisticated finish characterised by its warm, golden appearance and matt textured surface. Offering an edgy look with a welcoming warm-toned aesthetic.

The brushed brass edition is simply striking and adds distinction to the design. The Brus carbonator is now available in brushed brass, steel, black metallic and dark brown metallic.

EM77 electric kettle in brushed brass. Brass has been used in decorative arts for centuries, and its timeless appeal has made it a classic choice.

# Simplicity at its best

Freshly made sparkling water right in your own kitchen. The ultra-sleek soda maker saves the environment from unnecessary plastic with recyclable bottles at home.

„I am naturally driven by a desire to create products that are simple in both function and design. For me, there is a fine line between something being simple or banal. This is the balance that I investigate for every product I create. How much can I cut away without the design losing its character or soul?“

- Søren Refsgaard, Designer

# Cylinda-line —The heart of our design DNA

Arne Jacobsen played an important role in modernism and Danish design history, and present-day designers are still highly influenced by his works. He had an extraordinary understanding of proportion, which he applied to his designs. Arne Jacobsen designed the award-winning Cylinda-line cocktail and tableware series for Stelton in 1967 and it remains the heart of Stelton's design DNA.

This spring, we're relaunching the timeless Stelton toast holder from Arne Jacobsen's 'Cylinda-Line'. Crafted in stainless steel, it blends simple elegance with functionality, showcasing Jacobsen's signature style and Stelton's quality.

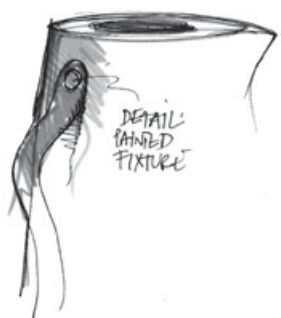

A design classic, it seamlessly combines timeless aesthetics and practicality, remaining relevant across generations.

# Making everyday life more beautiful

“The design process was an intuitive process, where you take two steps forward and one back. When you design a series like Emma, it’s like putting together a big puzzle where you have to create the pieces yourself. There is an enormous number of elements that needs to fit together.”

- HolmbäckNordentoff, Designer

The Emma series, with its simple and elegant lines, is a beautiful addition to any kitchen counter or dinner table. Emma includes everything from vacuum jugs to electric kettles and toasters. In the new Emma collection, you will find everything you need to set an inviting table from cups and plates to thermos, electric kettles and toasters.

# An environmentally friendly lifestyle

Stelton offers high quality vacuum insulated cups and bottles in 90% recycled stainless steel. Perfect for those who aspire to maintain an elegant and environmentally friendly lifestyle while on the go.

# Tabi

10 hours warm

20 hours cold

90% recycled stainless steel

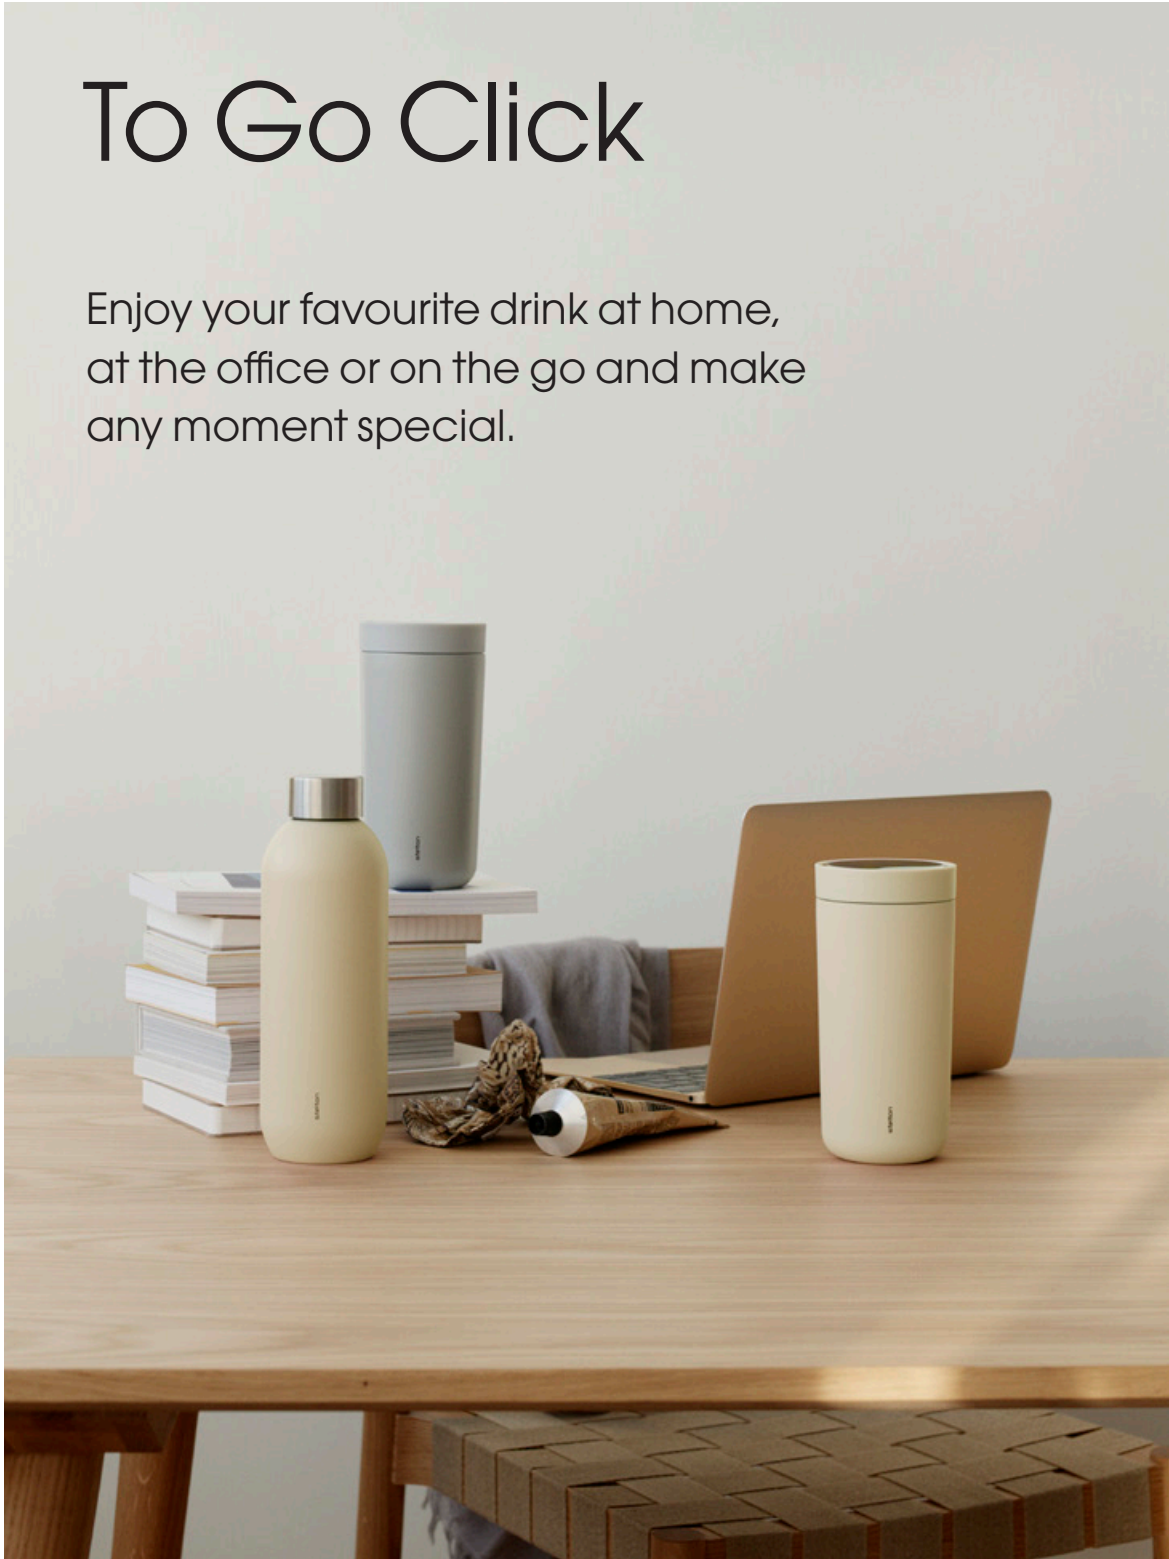

For the daring and adventurous, Tabi is Stelton's exciting new to-go line. Unleash your wanderlust. Designed for those who embrace life on the move.

# To Go Click

Enjoy your favourite drink at home,  
at the office or on the go and make  
any moment special.

## To Go Click 0.2 l

# Keep Cool

Stay cool with a vacuum-insulated bottle and ditch single-use water bottles for a cooler and more eco-friendly lifestyle.

Keep Cool is a high quality vacuum insulated bottle in 90% recycled stainless steel. Perfect for those who aspire to maintain an elegant and environmentally friendly lifestyle while on the go.

Dusty green and mellow yellow form a harmonious and visually striking color scheme perfectly aligned with Scandinavian design principles. The blend radiates freshness, evoking images of a sunlit meadow or a crisp Nordic morning, injecting vitality into the timeless elegance of the Scandi aesthetic.

12 hours warm

24 hours cold

90% recycled stainless steel

The Fjord series from Stelton for the bathroom is an essential part of any bathroom, where functionality and aesthetics come together.

# Fjord

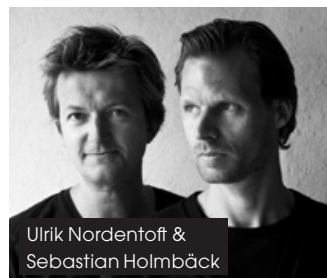

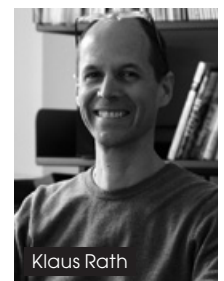

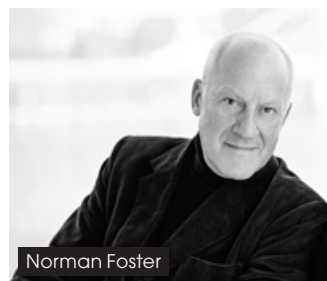

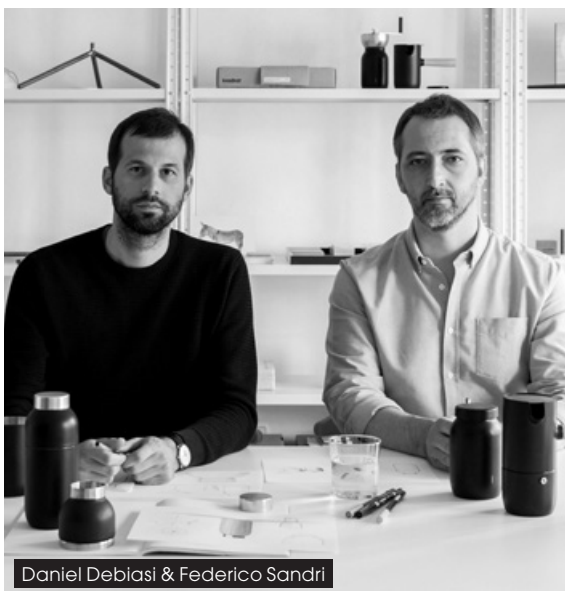

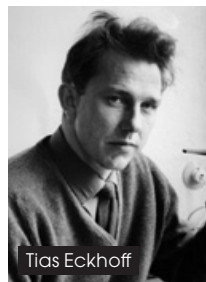

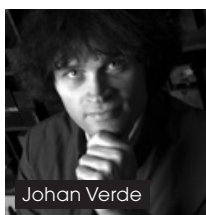

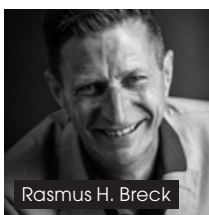

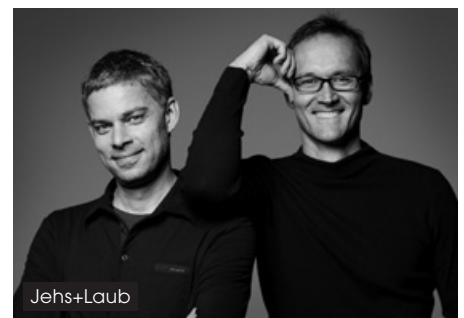

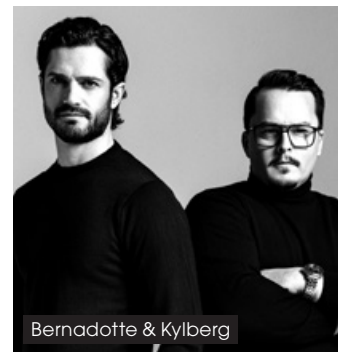

The Fjord series feature organic shapes, enhancing your bathroom's style, seamlessly combines convenience and elegance.

“Together with our talented and carefully selected designers, our ambition is to create timeless and functional designs that make everyday life a bit more beautiful.”

– Michael Ring, CEO, Stelton

# Stelton x Moomin

Tove Jansson was a multi-talented artist who is mostly remembered as the creator of the Moomins. Her stories about the peace-loving and tolerant Moomins is a global phenomenon and has made her one of the most successful children's authors of all times.
