Blue Canoe believes that making things in America is good business, and we have been doing just that since our founding in 1994.

From fabric to finish, Blue Canoe has always been made in the USA where there are strong environmental laws, worker safety regulations and minimum pay requirements that ensure we are held to the highest standards.

Not only do we support our local community by keeping jobs local, and keeping our supply chains simple, we also use only organically grown fibers to create clothing that is good for you and good for the planet.
