

# DIVE 1<sup>ST</sup> AID™

Are you ready when they're not?

## COMPLETE CARE

Complete Care, as the name says it's more than just an average first aid kit. We took everything you could possibly need to handle any emergency that comes your way and put it in a SKB® 3i-2213-12. With foam padding, a hard plastic shell, and a watertight seal, this kit is completely protected from any environment. Included in this kit is a complete AED setup, jumbo D oxygen kit (cylinders available in standard green or international white) and extensive medical supplies. Organized with our exclusive 4 step design, it makes wound management a breeze for anyone. Not lacking in supplies as this kit even meets the WHO's (World Health Organization) standards, that is why we named it the Complete Care. With everything this kit has to offer, it's the ideal kit for any dive shop, boat, resort or excursion and the contents spell out why.
