

HI-14H-PU HEAVY DUTY LONG TOE SACK TRUCK

The heavy duty long toe sack truck HI-14H-PU formerly known as our HI1890L Long Toe / Foot Plate Truck has now been bought into the sack barrow designer system where you can design a sack truck to meet your exact needs. These trucks are constructed from heavy duty 30mm angle iron, to give a superbly ridged frame. Fitted with a 20mm solid axle, and supplied as standard with Pneumatic tyres, on bolted steel centres to enable the changing of tyres to be quick and easy, and topped off with fully cased ball bearing to give a smooth ride and long life. You can upgrade the tyres to Polyurethane Foam Tyres that will never puncture. The curved back makes the moving of cylindrical loads easy.

Options

Our 20mm solid Sack Truck axles can fit both traditional Pneumatic Wheels or upgrade to our Polyurethane Puncture Proof wheels. No more flat tyres or punctures increasing safety and productivity.

Our handles come with multiple grip options. The standard is a durable rubber grip, alternately we also supply a knuckle guard grip or a comfort foam grip.

3 toe plate size options are available for our standard range: 250mm / 350mm / 450mm.

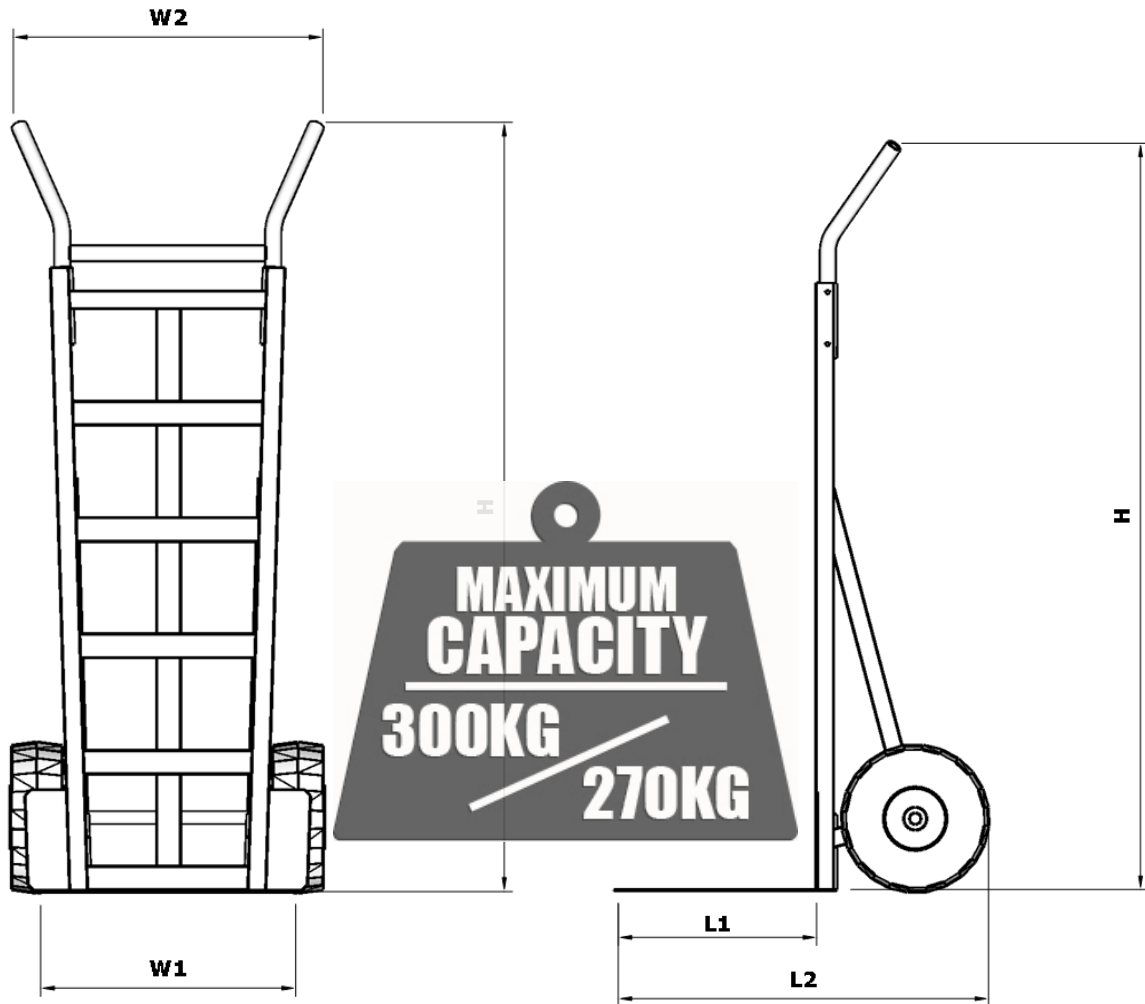

Safety straps are also available to accompany all our sack trucks for securing taller and heavier loads.

Handling Your Handling Needs
 VAT Registration Number 836 905013
 Company Number 4637039

Item	Measurement
Capacity	300Kg (270kg on Puncture Proofs)
Height (H)	1220mm
Width (W2)	560mm
Toe Plate Width (W1)	450mm
Toe Plate Length (L1)	250mm / 350mm / 450mm
Axle	20mm
