

## HI-32H-PU Sack Barrow With Mesh Back

Sack Barrow With Mesh Back with traditional style cow horn handles HI-32H-PU is part of our interactive sack barrow designer system, YOU now can make the sack barrows that fit your job. These sack barrows are constructed from heavy duty 30mm angle iron, which gives a remarkably ridged frame for a long life without the risk of bend, buckles and breaks. Fitted with a 20mm solid axle, and supplied as standard with Pneumatic tyres, on a bolted steel centre to enable the changing of tyres to be a simple job, and topped off with fully cased ball bearing to reduce effort. You can swap the tyres to Polyurethane Foam Tyres which are will never puncture which not only will last until you wear them to the rims, but also offer the additional safety benefits of ensuring that your staff are not responsible for keeping the air pressure correct, thus ensuring that the load doesn't lean. The mesh back is great for moving both very large or very small loads.

### Options

Our 20mm solid Sack Truck axles can fit both traditional Pneumatic Wheels or upgrade to our Polyurethane Puncture Proof wheels. No more flat tyres or punctures increasing safety and productivity.

Our handles come with multiple grip options. The standard is a durable rubber grip, alternately we also supply a knuckle guard grip or a comfort foam grip.

3 toe plate size options are available for our standard range: 250mm / 350mm / 450mm.

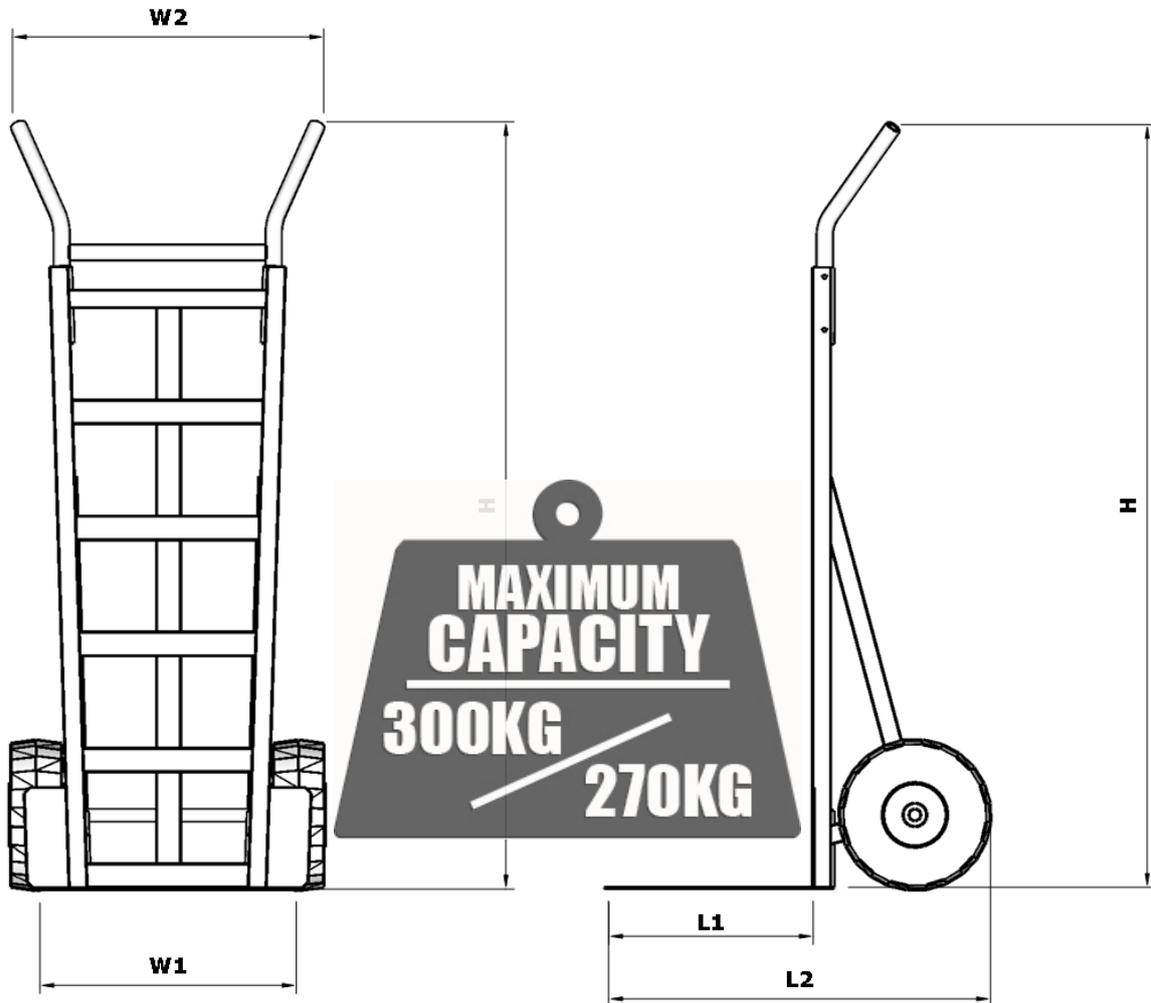

Safety straps are also available to accompany all our sack trucks for securing taller and heavier loads.
