

HI-36-TT82PN Shelf Trolley with Two Or Three Tiers and Pneumatic Castors

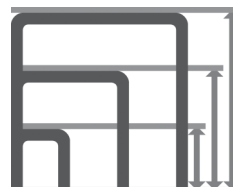

Two Or Three Shelf Trolley with Pneumatic Castors, based around our best-selling shelf trolley, but with a twist. Offers the same sturdy construction as a standard shelf trolley, but with removable shelves, recessed one side and flush the other, then mounted on 'Go-Anywhere' large 200mm Pneumatic castor wheels. A great trolley for schools, colleges and hospitals where travelling between departments can take you outside. Excellent over uneven ground, rough concrete, and even stone chippings and grass.

Options

The shelves are made to be reversable, with one side having an indent and one side being level

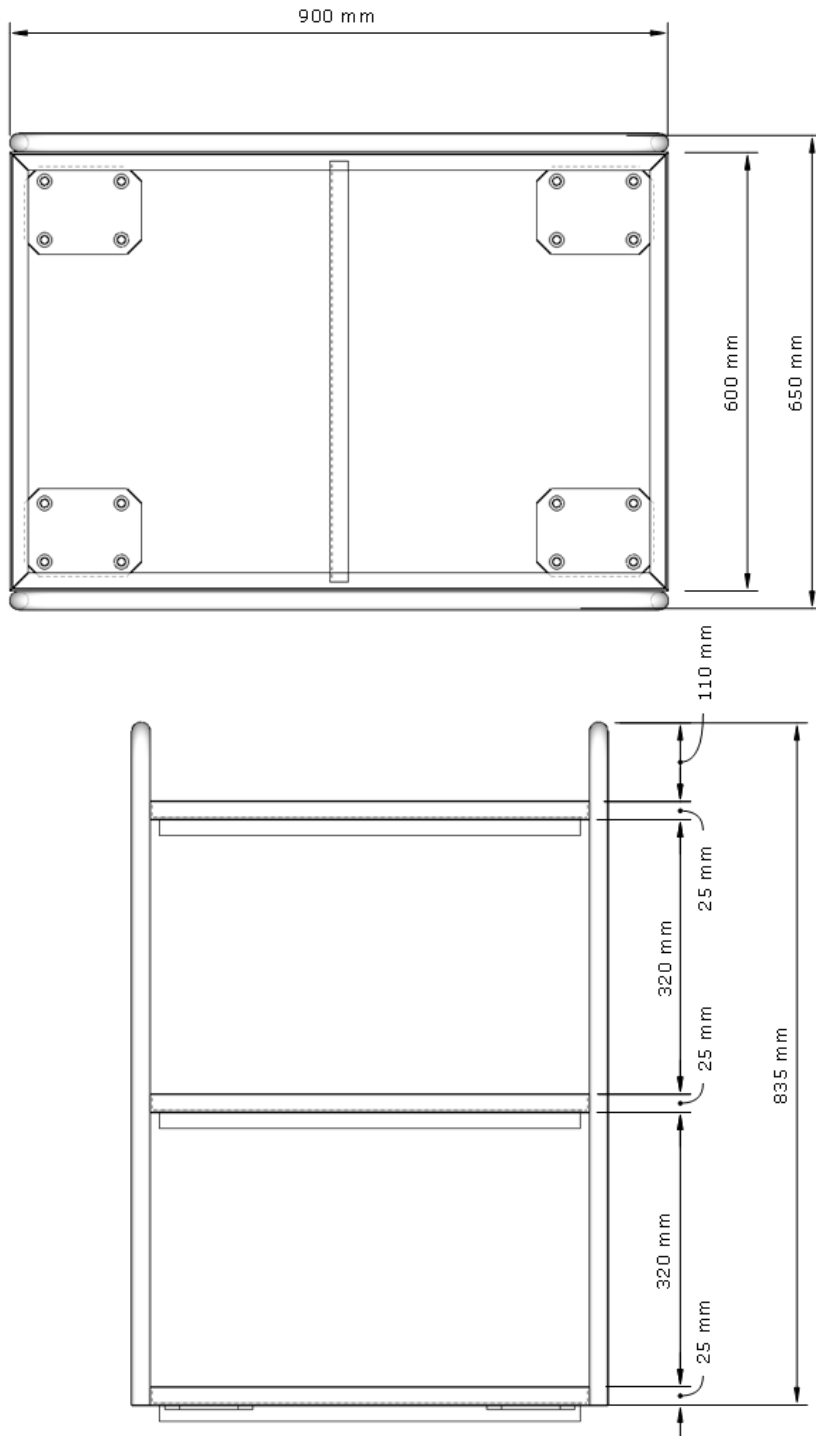

Available with either 2 or 3 tiers, and either 600mm x 900mm or 700mm x 1000mm
