

WASHABLE SHADE CARE INSTRUCTIONS

To keep your lampshade looking its best for years to come, we recommend the following cleaning methods:

Washing Options

You can clean your lampshade using any of the following methods:

By Hand

Gently wash in lukewarm water using a mild detergent. Avoid scrubbing or wringing the fabric to preserve its shape and texture.

Machine Wash

Place the lampshade in a protective laundry bag and wash on a delicate cycle at 30°C. Use a gentle detergent and avoid fabric softeners.

Dry Cleaning

For a professional touch or if you're unsure about washing at home, dry cleaning is a safe and effective option.

Drying Instructions

After washing:

- 1. Shake gently to remove excess water and help reduce creases.*
- 2. Hang to dry naturally in a well-ventilated area, away from direct sunlight or heat sources.*
- 3. Do not tumble dry – the heat may cause the fabric to shrink or distort*
- 4. Neatly press with a medium heat to ensure the shade looks its best*

By following these simple steps, your lampshade will stay fresh, clean, and beautifully maintained. If you have any questions or need further care advice, feel free to contact us.
