

## EXPLOSIVE BLOCKING PRACTICE

Teach the latest leverage blocking technique just like in the upper levels of football. Improve your players' skills with drills taking advantage of all the same features as our larger Lev Sled – the most widely used sled in football today. The Lev Sled's unique release mechanism allows the pad to be raised only after the ram has been compressed at least 4" helping develop proper drive technique.

 Warranty Information: [www.RogersAthletic.com/warranty](http://www.RogersAthletic.com/warranty)

#### Stainless Steel Skins

#### JV LEV SLED FACTS

- > Promotes leverage principles of blocking.
- > Ram provides more realistic resistance than leaf spring.
- > Great sled for BOTH offensive and defensive drills.
- > Heaviest sled on the market – no need to add additional weight.
- > Gives you the ability to teach the traditional blocking methods with the no-tools lock-down pad mechanism.

POWER. SKILL. VICTORY.
