The CORETECH™ Range

CORETECH™

CORETECH™ engineering for improved core stability and support of hip, groin and hamstring injuries.

- Unique, patented waistband & core compression
- Proven to help prevent & recover from osteitis pubis
- Can be worn in matches and training

TARGETED COMPRESSION

Body mapped targeted compression for focused support of major muscle groups, resulting in less soft tissue damage.

INCREASE BLOOD CIRCULATION

Graduated compression to increase blood circulation and reduce blood lactate for faster recovery.

SEAMLESS

Seamless technology allowing for ultimate compression, comfort, fit and performance.

MICROFIBRE WEAVE

High tech, durable, breathable microfibre weave allowing for longer product lifespan.

QUICK DRY

Quick dry and moisture wicking features for vital moisture management.

OPTIMAL THERMAL

Optimal thermal properties allowing for rapid warm up and temperature maintenance during exercise.

\$129

The Training Range

**TARGETED
COMPRESSION**

Body mapped targeted compression for focused support of major muscle groups, resulting in less soft tissue damage.

- Can be worn in matches and in training
- Body mapped gradient compression that improve circulation & provides muscle support

**INCREASE BLOOD
CIRCULATION**

Graduated compression to increase blood circulation and reduce blood lactate for faster recovery.

SEAMLESS

Seamless technology allowing for ultimate compression, comfort, fit and performance.

**MICROFIBRE
WEAVE**

High tech, durable, breathable microfibre weave allowing for longer product lifespan.

QUICK DRY

Quick dry and moisture wicking features for vital moisture management.

**OPTIMAL
THERMAL**

Optimal thermal properties allowing for rapid warm up and temperature maintenance during exercise.

FOOTBALL

The Recovery Range

**TARGETED
COMPRESSION**

- Increases venous blood flow
- Removes metabolic waste products more quickly
- Recover quicker
- Wear these after matches and training

**GRADIENT
COMPRESSION**

Faster recovery and reduces severity of DOMS

SEAMLESS

Seamless technology for ultimate compression, comfort and fit

**OPTIMAL
THERMAL**

Optimal thermal properties for recovery and recuperation

The Calf Range

INCREASE BLOOD CIRCULATION

Graduated compression to increase the blood circulation and reduce blood lactate for a faster recovery cycle

SEAMLESS

Seamless technology allowing for the ultimate in compression, comfort, fit and performance.

MICROFIBRE WEAVE

High tech, durable, breathable microfibre weaves allowing for a longer product lifespan

QUICK DRY

Quick dry and moisture wicking features for vital moisture management.

OPTIMAL THERMAL

Optimal thermal properties allowing for rapid warm up and temperature maintenance during exercise.

Optional Calf Compression with Shin Pad Pocket.

SUPACORE
FOOTBALL

Why Supacore?

- CORETECH: Proven positive impact on prevention of and recovery from osteitis pubis and other core related issues
- CORETECH: Only compression garment with built-in lower back and core support that can be worn in matches and at training
- Improves circulation resulting in maximum oxygen flow to muscles
- Reduces muscle oscillation upon ground contact
- Increases torque generated about joints, improving performance and reducing the risk of injury
- Enhances recovery following strenuous exercise by improving venous blood flow which removes metabolic waste products eg. lactate more quickly
- Reduces the effects of delayed muscle soreness in the days following strenuous exercise
- Increases feelings of positive leg sensations both during and following strenuous exercise
- Ensure you are able to perform at your peak, reduce the risk of injury and recover as fast as possible by supporting your body with compression from Supacore...

Less injury... More football!
