- The Driver Information Center Display..... 37
- 8" Diagonal MyLink™ radio with Navigation 38

MyLink™ is growing fast and getting smarter. As more of our vehicles are equipped with this advanced infotainment technology, it is evolving to meet customers' increasing demands for in-vehicle and personal connectivity, control and customization.

To complement MyLink's™ advanced technology, several vehicles now offer **OnStar® 4G LTE Wi-Fi**. Your vehicle can be a rolling mobile hotspot with great signal quality and bandwidth for up to seven devices.

In addition, MyLink™ is regularly customized to match the demographics of the buyers for particular vehicles. Today's MyLink™ keeps customers more connected and in control than ever before with new features:

- **Text Message Alerts** enable compatible Bluetooth® devices to display and respond with preset messages on MyLink's™ screen
- **Siri Eyes Free** enables customers to simply connect their iPhone® with the radio via Bluetooth® to use Siri

This Details Book gives you the background information you need to **showcase the new and impressive technology**, and it includes **practical how-to's** that explain key features and messages designed to turn shoppers into buyers and loyalists for life!

¹ See onstar.com for a detailed instruction guide, vehicle availability, details, and system limitations. Services and apps vary by make, model, year, carrier, availability, and conditions. 4G LTE service is available in select markets. 4G LTE performance is based on industry averages and vehicle systems design. Some services require a data plan.

ONSTAR® 4G LTE WI-FI¹

ONSTAR® 4G LTE WI-FI MAKES YOUR VEHICLE A ROLLING HOTSPOT (I04, I05, I06)

Your vehicle can be a rolling mobile hotspot with great signal quality and bandwidth for up to seven devices. OnStar® with 4G LTE service allows everyone in your vehicle to enjoy his or her own content. A 3-month/3GB, whichever comes first, trial is included when the OnStar® complimentary service is activated (OnStar's® Basic Plan is included for five years).

Press the OnStar® Voice Command Button on the mirror or overhead console or, if available, select the "OnStar®" icon on the radio home screen. Wait for the prompt and the beep and say, "Wi-Fi Settings." The screen will display the name and password for your Wi-Fi hotspot.

Go to Settings on the device you want to connect and find the name of your vehicle's 4G LTE Wi-Fi connection. Select the hotspot and input the password. Then, connect.

Press the blue OnStar® button and speak to an Advisor to change your 4G LTE Wi-Fi name and/or password, or manage your settings in your RemoteLink mobile app.

Video: OnStar® 4G LTE Wi-Fi¹

¹See onstar.com for a detailed instruction guide, vehicle availability, details, and system limitations. Services and apps vary by make, model, year, carrier, availability, and conditions. 4G LTE service is available in select markets. 4G LTE performance is based on industry averages and vehicle systems design. Some services require a data plan.

²Full functionality requires compatible Bluetooth® device. Go to gmtotalconnect.com to find out which phones are compatible with the vehicle.

TEXT MESSAGE ALERTS (I04, I05, I06)

If your vehicle is paired with a Bluetooth® device² that supports Text Message Alerts, the system:

- Can display important text messages
- Can play them back over the audio system
- Can send preset messages
- Requires a compatible smartphone with Bluetooth® profile (M.A.P.) and applicable text messaging features

For more information about varying capabilities, go to gmtotalconnect.com. For example, iPhones® require unique setup requirements and offer limited Text Message Alert capabilities.

How To Use Text Messaging

- Press "message" button on Home Page
- When messages are retrieved, "text message" inbox displays
- Select message for viewing (only available when vehicle is not moving)
- Select "Reply" to reply and select desired message from display of preset messages, then select "Send" (this function is not available for iPhones) incoming text messages
- Pop-up screen displays: select "Listen," "View," "Dismiss" or "Call". Turn off display alerts from the "Settings" button

NEW FEATURES

INTRO NEW FEATURES AVAILABILITY BASE RADIO 4.2" RADIO 8" RADIO 8" RADIO NAV

INTRODUCING NEW MYLINK™ FEATURES

Setting up Text Messaging during Phone Pairing

- **Android and BlackBerry** give you a pop-up right after you pair, asking whether you want to allow access to your messages
- **For compatible iPhones®**, you have to go into Settings, then Bluetooth®, select your vehicle and turn on notifications

Notes for iPhone®

Text messaging functionality with compatible iPhones® is limited to Apple restrictions on what the radio can access, e.g., text messages received prior to entering the vehicle will not be displayed, and you cannot reply to a text message.

“Show Notifications” must be enabled on the phone to allow the radio to access messaging; to enable “Show Notifications,” after pairing and connecting to the radio:

- On the phone, select “Settings,” then “Bluetooth®,” then “Properties” (either device-friendly name such as “Sierra” or “Radio”), then turn “Show Notifications”
- Restart vehicle for connection to take hold
- Once set, it is retained for future connections

Visit gmttotalconnect.com for vehicle and smartphone compatibility.

SIRI EYES FREE FOR IPHONE® USERS (104, 105, 106)

Siri Eyes Free gives compatible iPhone® users **hands-free access to some of their phone’s features**, like the calendar and text messaging.

Siri Eyes Free allows users to direct Siri to perform a number of tasks while they safely keep their **eyes on the road and their hands on the wheel**. The Eyes Free mode enables users to interact with their iPhone® using nothing more than their voice.

How to Use Siri Eyes Free

Owners simply **connect their iPhone® with the radio via Bluetooth®**, pair with the system, and **use the Push-to-Talk (PTT) button on the steering wheel** to begin and end sessions with Siri in Eyes Free mode.

Press and hold the PTT button long enough until Siri speaks; pressing and holding the PTT button for too short a period of time will engage the onboard voice recognition system and bypass Siri. Siri can:

- **Make voice-activated, hands-free calls** to contacts on their iPhone®
- **Play songs in the iTunes® library** and even switch music sources automatically from AM/FM/SiriusXM radio to iPod® mode
- **Listen to, compose and send an iMessage** or text message to a phone number or anyone in saved contacts
- **Access calendar** and add appointments
- **Answer simple questions** such as game scores or the dates of national holidays; while in Eyes Free mode, Siri will not provide answers to complex questions that require displaying a web page

- 4.2" Diagonal Color Connected Driver Information Center
- 4.2" Diagonal Monochrome Connected Driver Information Center (Colorado)

The 8" Color Touch MyLink™¹ radios feature a high-resolution, color touch-screen with an array of features that provide maximum **Connectivity** with smartphones, **Control** and **Customization**; an infotainment experience designed to meet customers' increasing demands.

Standard features for Impala LT, LTZ; Silverado LTZ; Tahoe/Suburban LT, LTZ and Colorado LT, Z71:

- 8" Touch Screen
- Gesture recognition – click, drag, fling
- MyMedia – consolidates media from multiple devices
- Customization of homepage, app tray and favorites
- 60 favorites for AM, FM, SiriusXM², media & contacts
- Swipe audio into the cluster
- SiriusXM² with TuneSelect and iTunes^{®3} tagging
- HD Radio with iTunes^{®3} tagging for Tahoe/Suburban only
- Time shift – record and play back 25 minutes of radio
- USB⁴ video support
- Text Message Alerts⁵
- Pinch and zoom for Silverado, Tahoe/Suburban and Colorado only⁵

Standard features for Impala 2LT, LTZ (optional); Silverado LT, LTZ (optional); Tahoe/Suburban LT, LTZ (optional) and Colorado LT, Z71 (optional):

- 60 favorites includes destinations
- Navigation⁶ – Flash Memory
- 3D city view
- POI search
- Input destination from phone contact list
- SiriusXM Travel Link⁶ – weather, fuel, movie listings
- SiriusXM Traffic⁷
- See maneuvers on IP

¹ Chevrolet MyLink™ functionality varies by model. Full functionality requires compatible Bluetooth®, smartphone and USB connectivity for some devices. Not compatible with all devices.

² If you subscribe after your trial period, subscriptions are continuous until you call SiriusXM to cancel. See SiriusXM Customer Agreement for complete terms at siriusxm.com. Other fees and taxes will apply. All fees and programming subject to change. SiriusXM satellite service is available only in the 48 contiguous United States and Washington, DC.

³ iTunes® is a registered trademark of Apple Computer, Inc., registered in the U.S. and other countries

⁴ Not compatible with all devices.

⁵ Silverado HD, Tahoe & Suburban 2015 interim model year

⁶ Requires optional MyLink™ with Navigation. Navigation maps only cover the 48 contiguous United States and portions of Canada, but do not cover Alaska, Hawaii, Puerto Rico or the Virgin Islands.

⁷ Requires a subscription sold separately by SiriusXM after the trial period. The SiriusXM Travel Link data displays and individual product availability vary by vehicle hardware. Not all vehicles or devices are capable of receiving all Travel Link services offered by SiriusXM; Weather Forecast, Current Conditions may not be available in all locations; and features of individual systems will vary. SiriusXM is not responsible for any errors or inaccuracies in the SiriusXM Travel Link services or their use. For more information, see siriusxm.com/travellink.

8" DIAGONAL MYLINK™1 RADIO KEY MESSAGES (105)

POWERFUL CONNECTIVITY ONSTAR® 4G LTE WI-FI²

Your vehicle can be a rolling mobile hotspot with great signal quality and bandwidth for up to seven devices. OnStar® with 4G LTE² service allows everyone in your vehicle to enjoy his or her own content. A three-month/3GB, whichever comes first, trial is included when the OnStar®³ complimentary service is activated (OnStar's®³ Basic Plan is included for five years).

MyLink™1 offers three **USB ports**⁴ to connect devices, plus the ability to stream audio. And MyLink's™1 **My Media** feature aggregates USB-connected media so user can search for a song or an artist without switching devices. **Pair up to ten Bluetooth®** devices⁵ and enjoy the convenience of an embedded application for Pandora®⁶.

Video: OnStar® 4G LTE Wi-Fi²

PAIRING BLUETOOTH® DEVICE⁵

Connect and take control of Bluetooth®⁵ devices with MyLink. Pair up to ten Bluetooth®⁵ devices. Store up to 3500 phone numbers that are accessible by voice recognition. And with certain phones, see a picture of the incoming caller. Only one Bluetooth®⁵ device can be used at a time. iPhones® have full functionality with MyLink™1 when connected via a USB cable. When paired with MyLink™1 via Bluetooth®⁵, you can make and receive call on your iPhone® through the radio. You can also stream audio and play Pandora®⁶, but to control media or streaming audio through MyLink™1, you must tether any Apple device.

Video: Siri Eyes Free

GREATER CONTROL SIRI EYES FREE

Siri Eyes Free gives compatible iPhone® users hands-free access to some of their phone's features, like the calendar and text messaging. Siri Eyes Free allows users to direct Siri to perform a number of tasks while they safely keep their eyes on the road and their hands on the wheel. The Eyes Free mode enables users to interact with their iPhone® using nothing more than their voice.

TEXT MESSAGE ALERTS

If your vehicle is paired with a Bluetooth®⁵ device that supports **Text Message Alerts**, the system:

- Can display important text messages
- Can play them back over the audio system
- Can send preset messages
- Requires a compatible smartphone with Bluetooth®⁵ profile (M.A.P.) and applicable text messaging features

Video: Text Message Alerts

¹ Chevrolet MyLink™ functionality varies by model. Full functionality requires compatible Bluetooth®, smartphone and USB connectivity for some devices. Not compatible with all devices.

² See onstar.com for a detailed instruction guide, vehicle availability, details, and system limitations. Services and apps vary by make, model, year, carrier, availability, and conditions. 4G LTE service is available in select markets. 4G LTE performance is based on industry averages and vehicle systems design. Some services require a data plan.

³ Visit onstar.com for coverage maps, details and system limitations. Services vary by model and conditions. OnStar® acts as a link to existing emergency service providers.

⁴ Not compatible with all devices.

⁵ Full functionality requires compatible Bluetooth® device. Go to gmttotalconnect.com to find out which phones are compatible with the vehicle.

⁶ Requires Pandora® account and connected Bluetooth® device with Pandora® app. Data rates apply.

8" DIAGONAL MYLINK™¹ RADIO KEY MESSAGES

NATURAL LANGUAGE VOICE RECOGNITION

MyLink™¹ recognizes natural language and phrases, so there are no more commands to memorize. Just speak to the system, and it responds. Natural voice commands work for connected Bluetooth®² devices, contacts listed in your connected Bluetooth®² phone's book, My Media on connected USB devices³ and radio. For example:

- I want to call John Westin at work
- Take me home⁴
- I want to listen to the blues
- Play the White Album
- Play "Born in the USA"

GESTURES PUT YOU IN COMMAND

You're used to using gestures on tablets and some smartphones. Now, use them on MyLink's™¹ touch-screen. And navigation of the 8" high-resolution touch-screen is faster and more intuitive, using familiar gestures like press, press and hold, drag and fling or swipe. For example:

- Press to select a button or option, activate an application or change the location within a map⁴
- Press and hold to start another gesture, move, or delete an application
- Drag to move an application on the Home Page or to pan a map⁴ hold it, then you can drag it up, down, right or left to the new location
- Swipe or fling through a list, to expand the favorites list, to pan a map⁴ quickly, or to change page views. To fling or swipe through a list, for example, place your finger on the screen then move it up or down rapidly

CUSTOMIZATION

Choose the center stack information you want to see in the cockpit-inspired **Driver Information Center** display and change what you see at any time using the five-way controller on the steering wheel.

MyLink™¹ radio takes the word "favorites" literally. Store locations, contacts, songs and stations in any order as one of **60 favorites** and recall them at the touch of a touch-screen button or a voice command.

Press, hold and drag icons on the main page to new locations. Or drag three to five of your most frequently used home screens in the **app tray** for easy access from any screen.

¹ Chevrolet MyLink™ functionality varies by model. Full functionality requires compatible Bluetooth®, smartphone and USB connectivity for some devices. Not compatible with all devices.

² Full functionality requires compatible Bluetooth® device. Go to gmttotalconnect.com to find out which phones are compatible with the vehicle.

³ Not compatible with all devices.

⁴ Requires optional MyLink™ with Navigation

CONTROL – NATURAL VOICE OR FAMILIAR GESTURES PUT YOU IN COMMAND

Gestures

You're used to using **gestures** on tablets and some smartphones. Now, **use them on MyLink's™¹ touch-screen.**

- **Press** to select a button or option, activate an application or change the location within a map²
- **Press and hold** to start another gesture, move or delete an application
- **Drag** to move an application on the Home Page or to pan a map². To drag an item, you must first press and hold it, then you can drag it up, down, right or left to the new location
- **Swipe or fling** through a list, to expand the favorites list, to pan a map² quickly or to change page views. To fling or swipe through a list, for example, place your finger on the screen then move it up or down rapidly

Natural Language Voice Recognition

Tired of having to memorize commands for in-vehicle radios? No need with MyLink™¹. Natural language voice recognition allows you to **tell MyLink™¹ what you want to do** in everyday language.

Natural voice **commands³ work for connected Bluetooth®⁴ phones, contacts** listed in your connected Bluetooth®⁴ phone's phone book, **My Media** on connected USB devices⁵ and radio. For example:

- "I want to call John Westin at work"
- "I want to listen to the blues"
- "Play the White Album"
- "Play Born in the USA"

¹ Chevrolet MyLink™ functionality varies by model. Full functionality requires compatible Bluetooth®, smartphone and USB connectivity for some devices. Not compatible with all devices.

² Requires optional MyLink™ with Navigation

³ Only supported for US English.

⁴ Full functionality requires compatible Bluetooth® device. Go to gmttotalconnect.com to find out which phones are compatible with the vehicle.

INTERACTING WITH MYLINK™¹

HOW TO USE THE TOUCH-SCREEN

MyLink's™¹ beautiful 8" high-resolution touch-screen is designed to be familiar—like a smartphone or tablet. Bright, easy-to-interpret icons are touch-sensitive buttons that take you to intuitive, well-organized menus that are the key to MyLink's™¹ operations. And just like on a tablet, MyLink™¹ “grays out” icons that are not active or selectable.

To make it easier and faster to navigate through MyLink's™¹ screens, MyLink™¹ recognizes many gestures that will be familiar to users.

Gestures

You're used to using **gestures** on tablets and smartphones. Now, use them on MyLink's™¹ touch-screen.

- **Press** to select a button or option, activate an application or change the location within a map²
- **Press and hold** to start another gesture, move or delete an application
- **Drag** to move an application on the Home Page or to pan a map². To drag an item, you must first press and hold it, then you can drag it up, down, right or left to the new location
- **Swipe or fling** through a list to reveal more favorites, to pan a map² quickly or to change page views. To fling or swipe through a list, for example, place your finger on the screen then move it up or down rapidly

¹ Chevrolet MyLink™ functionality varies by model. Full functionality requires compatible Bluetooth®, smartphone and USB connectivity for some devices. Not compatible with all devices.

² Requires optional MyLink™ with Navigation. Navigation maps only cover the 48 contiguous United States and portions of Canada, but do not cover Alaska, Hawaii, Puerto Rico or the Virgin Islands.

How to Pair a Device

- Start with vehicle in “Park,” then **initiate pairing by one of two ways:**
 - Press the “Phone” icon, select “Phones” then, select “Pair new device”
 - Press the “Push-to-Talk” button on steering wheel, wait for system response and beep, then say “Pair Phone”
- **PIN** appears
- **Start the pairing process** on phone
- Locate “Chevrolet MyLink™” on phone and match or enter PIN (depending on phone)
- The screen replies “Device name has been successfully paired”
- The phone may ask permission to allow system to access phone book. If a message requesting permission appears on your phone, confirm the request and check the box to “Always Allow”

USING “SETTINGS” TO CUSTOMIZE THE SYSTEM

Video: Use Radio Settings

Customers should be familiar with what is in “Settings.” Here are some suggestions as to what you should set for customers and what you should explain and demonstrate.

SET “TIME AND DATE” FOR CUSTOMERS

- Set **time/auto set** (syncs clock automatically in the same manner as a smartphone)
- Set **date/auto set** (syncs date automatically in the same manner as a smartphone)
- **Clock display** – turns display on and off

SET “LANGUAGE” FOR CUSTOMERS

- English
- French Canadian
- Spanish

DEMONSTRATE “VALET MODE” FOR CUSTOMERS

- **Locks** infotainment system, steering wheel controls, steering column (if equipped with tilt/telescoping wheel) and vehicle storage locations
- Enter 4-digit code on keypad
- Press “**Enter**” to go to confirmation screen
- Re-enter 4-digit code
- Press “**Lock**” to lock the system
- Enter 4-digit code again to unlock the system
- Press the “**Back**” button on screen or faceplate to return to previous menu
- **Standard on all MyLink™1-equipped Impalas (not LS)**

FAMILIARIZE CUSTOMERS WITH “RADIO” SETTINGS

- **Manage favorites**
 - **Delete, reorganize and re-name them**
- **Number of favorites shown**
 - Choose **how many favorites** are available (5, 10, 15, etc., up to 60). Auto will automatically adjust as you save and delete favorites
- **Audible Touch Feedback**
 - An on/off function for **feedback you hear when you touch the screen**
- **Auto Volume**
 - Adjusts **automatic volume compensation for road noise**—off, low, medium-low, medium, medium-high, high
- **Maximum Start-up Volume**
 - Sets **maximum volume at vehicle start-up**
- **Audible Cue Volume**
 - Sets **volume of system cues at vehicle start-up**

¹ Chevrolet MyLink™ functionality varies by model. Full functionality requires compatible Bluetooth®, smartphone and USB connectivity for some devices. Not compatible with all devices.

- **Display “Places of Interest” Icons** – press to display or turn off POI icons
- **Personal Data** – press to access and manage data that the system has saved during the course of using the navigation system

ADDITIONAL FEATURES WITH A SUBSCRIPTION TO SIRIUSXM TRAVEL LINK³

- **Weather Icon:** With a subscription to SiriusXM Travel Link³, access to daily and extended forecasts
- **SiriusXM Travel Link³** also gives you access to fuel prices and movie listings integrated into Places of Interest categories/destination method

ONSTAR® TURN-BY-TURN NAVIGATION

An OnStar^{®4} subscriber has the ability to connect to the OnStar^{®4} system and ask an OnStar^{®4} Advisor to download a destination into the built-in navigation system. OnStar^{®4} will send address information and location coordinates of the destination into MyLink's™1 navigation system.

¹ Chevrolet MyLink™ functionality varies by model. Full functionality requires compatible Bluetooth®, smartphone and USB connectivity for some devices. Not compatible with all devices.

² Requires optional MyLink™ with Navigation. Navigation maps only cover the 48 contiguous United States and portions of Canada, but do not cover Alaska, Hawaii, Puerto Rico or the Virgin Islands.

³ Requires a subscription sold separately by SiriusXM after the trial period. The SiriusXM Travel Link data displays and individual product availability vary by vehicle hardware. Not all vehicles or devices are capable of receiving all Travel Link services offered by SiriusXM; Weather Forecast, Current Conditions may not be available in all locations; and features of individual systems will vary. SiriusXM is not responsible for any errors or inaccuracies in the SiriusXM Travel Link services or their use. For more information, see siriusxm.com/travellink.

⁴ Visit onstar.com for coverage maps, details and system limitations. Services vary by model and conditions. OnStar® acts as a link to existing emergency service providers.
