Instructions & Offers Inside!

Manufactured By Jabtek Ltd, CT18 8DF

INSTRUCTIONS:

1. Find a suitable location and check that there are no hazards in the chosen space, e.g. power cables, water pipes or anything that should not be damaged.

2. Hold the bracket in the location you want to install it, ensure the bracket is level.

3. Using a pen or pencil mark through the mounting screw holes onto the surface you want to mount to.

4. If mounting to a solid wall use a 6mm drill bit to make the necessary holes as marked.

5. Place a yellow fixing raw plug in each hole.

6. Line up your bracket holes with the yellow raw plugs in the wall and using the screws provided, screw the bracket to the wall, DO NOT OVER TIGHTEN.

7. Place your device into the wall mounted bracket.
